Social Justice and Education in the 21st Century Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country s developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy

The Routledge Handbook of Housing and Welfare Martin Grandner, Mark Stephens, 2023-12-22 This handbook takes on one of the most pressing issues of today s society the question of housing It is a cutting edge edited volume about the disputed interrelationship between housing and the wider welfare state Although housing scholars generally agree that housing should be regarded as part of such a wider welfare system it has proven hard to pinpoint and operationalize its position within it Moreover the relationship became considerably more complex as a result of the period of intense globalization and the integration of national housing finance systems into world finance markets Furthermore welfare systems reflect economic as well as social models and these too have changed as countries have responded to globalization and traditional ideological frameworks have become less distinct Thus there is a need to redefine the connection between housing and welfare in light of changes in both welfare and housing systems By investigating the current situation and historical development of housing provision and welfare distribution in different contexts worldwide this book aims to contribute to an expanded understanding of housing and welfare The book brings together 25 international housing researchers covering 15 countries worldwide With such a global approach the book aims to provide an updated empirical picture and analysis of different housing systems and their connection to the welfare regime in different national contexts The book moves beyond the usual focus on affordable housing provision in the context of well developed welfare regimes and includes countries from the global south incorporating regions where it is debatable whether there are welfare systems present at all Thus the book aims to provide the reader with an insight into the large differences in housing provision in international contexts with large differences regarding how the welfare state is comprised From these insights we reflect on whether regime approaches

continue to provide a suitable theoretical framework for understanding the relationship between housing and the wider welfare state This handbook is essential reading for researchers students policymakers and other professionals in the fields of housing studies welfare studies economics urban studies social work social and public policy and sociology *Accessing Post-School Studies* Venicia McGhie & Madge du Preez,2017-12-01 *Accessing Post School Studies* A student's GPS to successful learning makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success student learning student support and student engagement In this regard the authors draw on the works of higher education theorists such as Kuh Tinto Marton and S l j The book is primarily a helpful resource for South African learners in school students at universities life orientation teachers as well as parents of prospective university students It will especially assist students to adapt to the university environment Prof Victor N Teise Sol Plaatje University Kimberley South Africa *Getting Skills Right: South Africa* OECD,2017-07-10 This report identifies effective strategies to tackle skills imbalances in South Africa **From School to Higher Education?** Michael Cosser,Jacques Du Toit,2002 This substantive report is essential reading for those involved in higher education planning and policy making

Higher Education Financing in East and Southern Africa Pundy Pillay,2010 This nine country study of higher education financing in Africa includes three East African states Kenya Tanzania and Uganda five countries in southern Africa Botswana Lesotho Mozambique Namibia and South Africa and an Indian Ocean island state Mauritius Higher Education Financing in East and Southern Africa explores trends in financing policies paying particular attention to the nature and extent of public sector funding of higher education the growth of private financing including both household financing and the growth of private higher education institutions and the changing mix of financing instruments that these countries are developing in response to public sector financial constraints This unique collection of African country case studies draws attention to the remaining challenges around the financing of higher education in Africa but also identifies good practices lessons and common themes **Higher Education Financing in East and Southern Africa** Pundy Pillay,2010-07-12 This nine country study of higher education financing in Africa includes three East African states Kenya Tanzania and Uganda five countries in southern Africa Botswana Lesotho Mozambique Namibia and South Africa and an Indian Ocean island state Mauritius Higher Education Financing in East and Southern Africa explores trends in financing policies paying particular attention to the nature and extent of public sector funding of higher education the growth of private financing including both household financing and the growth of private higher education institutions and the changing mix of financing instruments that these countries are developing in response to public sector financial constraints This unique collection of African country case studies draws attention to the remaining challenges around the financing of higher education in Africa but also identifies good practices lessons and common themes **Discrimination in an Unequal World** Miguel Angel Centeno,Katherine S. Newman,2010-09 Is globalization making our world more equal or less Proponents of globalization

argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of opportunity Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination Tackling this challenge *Discrimination in an Unequal World* explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination across the world can be compared Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories Electronic Government and the Information Systems Perspective Andrea Kö, Enrico Francesconi, Adeleh Asemi, Gabriele Kotsis, A Min Tjoa, Ismail Khalil, 2023-07-28 This book constitutes the proceedings of the 12th International Conference on Electronic Government and the Information Systems Perspective EGOVIS 2023 which took place in Penang Malaysia during August 28 30 2023 The 8 full papers presented together with 1 short paper were carefully reviewed and selected from a total of 17 submissions They were organized in topical sections as follows e Government strategy artificial intelligence
