*Service-Learning Paradigms* Kenneth Colburn, Jr., Rona Newmark, 2007-07 The papers in this volume have been selected primarily from the presentations at the International Symposium on Service Learning cosponsored by Stellenbosch University in South Africa and the University of Indianapolis in the United States It aims to explore service learning paradigms for the 21st century New Paradigms for Theory Research and Curriculum Development New Paradigms for Teaching and Learning and Paradigms for Intercommunity and Interdisciplinary Collaboration This volume provides clear evidence that the paradigm of service learning has gone global and international Service learning has become the new coin of the academic and civic realm for issues of connecting teaching scholarship and community services Fees Must Fall Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt **Social Justice and Education in the 21st Century** Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and

inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country's developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy

**Student Financing of Higher Education** Donald Heller, Claire Callender, 2013-06-07 The financing of higher education is undergoing great change in many countries around the world In recent years many countries are moving from a system where the costs of funding higher education are shouldered primarily by taxpayers through government subsidies to one where students pay a larger share of the costs There are a number of factors driving these trends including A push for massification of higher education in the recognition that additional revenue streams are required above and beyond those funds available from governments in order to achieve higher participation rates Macroeconomic factors which lead to constraints on overall government revenues Political factors which manifest in demands for funding of over services thus restricting the funding available for higher tertiary education A concern that the returns to higher education accrue primarily to the individual rather than to society and thus students should bear more of the burden of paying for it This volume will help to contribute to an understanding of how these trends occur in various countries and regions around the world and the impact they have on higher education institutions students and society as a whole With contributions for the UK USA South Africa and China this vital new book gives a truly global picture of the rapidly changing situation

*QUALITY OF LIFE SURVEY V (2017/18) THE QUALITY OF LIFE OF STUDENTS IN GAUTENG* Christian Hamann, Kate Joseph, 2020-07-29 GCRO Data Brief on quality of life of students

*OECD Development Policy Tools Evidence-based Policy Making for Youth Well-being A Toolkit* OECD, 2017-10-17 With 1.2 billion people today's youth population aged 15-24 represents the largest cohort ever to enter the transition to adulthood Close to 90% of these young people live in developing countries and the numbers will practically double in the least developed countries

Going to University. The Influence of Higher Education on the Lives of Young South Africans Jennifer Case, Delia Marshall, 2018-02-09 Around the world more young people than ever before are attending university Student numbers in South Africa have doubled since democracy and for many families higher education is a route to a better future for their children But alongside the overwhelming demand for higher education questions about its purposes have intensified Deliberations about the curriculum culture and costing of public higher education abound from student activists academics parents civil society and policy makers We know from macro research that South African graduates generally have good employment prospects But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses And even less is known about what happens to those who drop out This accessible book brings together the rich life stories of 73 young people six years after they began their university studies It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to

engage critically with the world around them The book offers deep insights into the ways in which public higher education is both a private and public good and it provides significant conclusions pertinent to anyone who works in and cares about universities      *South Africa Can Work* Frans Rautenbach,2017-08-18 What will it take to turn South Africa around In this insightful and provocative book Frans Rautenbach proposes a complete overhaul of policy thinking and provides fresh arguments that effectively address South Africa s unemployment race problems and lack of education Rautenbach examines the fundamental problem of rent seeking to which he proposes two antidotes the free market and decentralisation of government Along the way he tackles holy cows such as affirmative action trade unions labour law and welfare payments He also addresses contentious topics such as racism white privilege political correctness state funding of higher education and mounting evidence that trade unions substantially suppress employment growth Written by a labour lawyer with a proven track record in a range of policy issues *South Africa Can Work* speaks effectively to a cross section of readers of all disciplines and brings sorely needed good news      *The Youth Dividend* Jan H.
