Ss2 Skim Of Work:

Academic Performance ,2024-09-18 Academic performance is an unavoidable topic for educational scientists instructional experts students faculty staff academic managers parents families and policymakers While student academic performance is a topic of passionate discussion it is also interconnected with both faculty staff and higher education institutions Achieving academic success requires more than just the efforts of the student The teaching profession in higher education increasingly demands measurable results to attest to its efficiency And the need for the accountability required from higher education institutions tends to influence institutional strategic plans according to tangible and measurable goals This book will aim to cover the different perspectives of academic performance placing on the stage the different actors in higher education students faculty and institutions **Multidisciplinary Journal of Research Development** ,2010

Public-Key Cryptography -- PKC 2015 Jonathan Katz,2015-03-16 This book constitutes the refereed proceedings of the 18th International Conference on Practice and Theory in Public Key Cryptography PKC 2015 held in Gaithersburg MD USA in March April 2015 The 36 papers presented in this volume were carefully reviewed and selected from 118 submissions They are organized in topical sections named public key encryption e cash cryptanalysis digital signatures password based authentication pairint based cryptography efficient constructions cryptography with imperfect keys interactive proofs lattice based cryptography and identity based predicate and functional encryption **Nigerian Journal of Research and**

Production ,2010-04 **Reference Catalogue of Current Literature** ,1913 **WiMAX Network Planning and Optimization** Yan Zhang,2009-04-23 This book offers a comprehensive explanation on how to dimension plan and optimize WiMAX networks The first part of the text introduces WiMAX networks architecture physical layer standard protocols security mechanisms and highly related radio access technologies It covers system framework topology capacity mobility management handoff m **Advances in Computer Systems Architecture** Thambipillai Srikanthan,Jingling

Xue,Chip-Hong Chang,2005-10-19 On behalf of the ProgramCommittee we are pleased to present the proceedings of the 2005 Asia Paci c Computer Systems Architecture Conference ACSAC 2005 held in the beautiful and dynamic country of Singapore This conference was the tenth in its series one of the leading forums for sharing the emerging research ndings in this eld In consultation with the ACSAC Steering Committee we selected a member Program Committee This Program Committee represented a broad spectrum of research expertise to ensure a good balance of research areas stitutions and experience while maintaining the high quality of this conference series This year s committee was of the same size as last year but had 19 new faces We received a total of 173 submissions which is 14% more than last year Each paper was assigned to at least three and in some cases four ProgramC mittee members for review Wherever necessary the committee members called upon the expertise of their colleagues to ensure the highest possible quality in the reviewing process As a result we received 415 reviews from the Program Committee members and their 105 co reviewers whose names are acknowledged

in the proceedings. The conference committee adopted a systematic blind review process to provide a fair assessment of all submissions. In the end we accepted 65 papers on a broad range of topics giving an acceptance rate of 37.5%. We are grateful to all the Program Committee members and the co-reviewers for their efforts in completing the reviews within a tight schedule.

Journal of Arts and Social Sciences Update, 2008

Advances in Efficiency and Productivity Juan Aparicio, C. A. Knox Lovell, Jesus T. Pastor, 2016-12-23

This book grows from a conference on the state of the art and recent advances in Efficiency and Productivity. Papers were commissioned from leading researchers in the field and include eight explorations into the analytical foundations of efficiency and productivity analysis. Chapters on modeling advances include reverse directional distance function, a new method for estimating technological production possibilities, a new distance function called a loss distance function, an analysis of productivity and price recovery indices, the relation of technical efficiency measures to productivity measures, the implications for benchmarking and target setting of imposing weight restrictions on DEA models, weight restrictions in a regulatory setting, and the Principle of Least Action. Chapters on empirical applications include a study of innovative firms that use innovation inputs to produce innovation outputs, a study of the impact of potential competition or cooperation among competitors on the financial performance of European automobile plants using SFA to estimate the eco-efficiency of dairy farms in Spain, a DEA bankruptcy prediction model, a combined stochastic cost frontier analysis model, mixture hazard model, the evolution of energy intensity in nine Spanish manufacturing industries, and the productivity of US farmers as they age.

Distributed Computing and Artificial Intelligence Sigeru Omatu, Juan F. De Paz Santana, Sara Rodríguez González, Jose M. Molina, Ana M. Bernardos, Juan M. Corchado Rodríguez, 2012-03-23

The International Symposium on Distributed Computing and Artificial Intelligence 2012 (DCAI 2012) is a stimulating and productive forum where the scientific community can work towards future cooperation in Distributed Computing and Artificial Intelligence areas. This conference is a forum in which applications of innovative techniques for solving complex problems will be presented. Artificial intelligence is changing our society. Its application in distributed environments such as the internet, electronic commerce, environment monitoring, mobile communications, wireless devices, distributed computing, to mention only a few, is continuously increasing, becoming an element of high added value with social and economic potential in industry, quality of life, and research. These technologies are changing constantly as a result of the large research and technical effort being undertaken in both universities and businesses. The exchange of ideas between scientists and technicians from both the academic and industry sector is essential to facilitate the development of systems that can meet the ever-increasing demands of today's society. This edition of DCAI brings together past experience, current work, and promising future trends associated with distributed computing, artificial intelligence, and their application in order to provide efficient solutions to real problems. This symposium is organized by the Bioinformatics, Intelligent System, and Educational Technology Research Group (<http://bisite.usal.es>) of the University of Salamanca. The present edition will be held in Salamanca.
