Staar Quick Reference Sheet Math 3rd Grade 2014:

Math Problem Solving Through Small Group Instruction Dani Fry Jackson, 2025-11-10 Problem solving in math is complex. When students struggle, it can be difficult to diagnose where the breakdown is happening. This book defines how reading comprehension, math computation, and self-efficacy impact students' problem-solving abilities and how you can support them in each area with a particular focus on the use of small group instruction. Chapters break down the process of problem solving into an easy-to-follow progression with lessons provided throughout. There is a step-by-step guide to help you analyze students' work with tips on managing flexible small groups. Learning targets help show when students have mastered each step of a problem or flag difficulties you can assist with along the way. The author includes tasks for each grade level with an example response plan as a guide alongside meaningful research informing small moves that can make big gains. Great for math educators of grades K-5, administrators, and math curriculum coordinators, this book will leave you feeling confident in identifying student behavior related to mathematical problem solving and addressing it with detailed ways to respond with exactly what your students need.

Driven by Data 2.0 Paul Bambrick-Santoyo, 2019-04-08 The bestselling guide for school leaders, updated in a new edition. Data-driven instruction is the philosophy that schools should focus on two simple questions: how do you know if students are learning? And when they are not, what do you do about it? *Driven by Data 2.0* is a practical guide that answers these questions to empower schools to achieve significant gains in student achievement. Rooted in a proven framework that has been implemented in thousands of schools, the book presents what makes schools successful along with tools to put the framework into place to make data work for your schools. Assess, set the roadmap for learning, analyze, identify why students struggle, act, teach more effectively what students need, build the culture, train and develop your staff so that data-driven instruction can thrive. If you're a K-12 leader, coach, or teacher looking to implement data-driven instruction in your school district, *Driven by Data 2.0* has the tools to train your staff, PD materials, videos of exemplar practice, and all the resources you need to achieve remarkable results.
