

STAAR Review Study Guide

Student Handout

Print this study guide for your students. Fill it out in sections as a class mini lessons during your STAAR review unit OR have students complete independently!

Industrialization is the use of machinery and use of scientific advancements in manufacturing, usually dangerous for today's students.

- used to make economic growth in the United States
- developed the new system for manufacturing goods
- allowed workers without much education to work machines
 - many workers were women, children, immigrants
- industrialization brought innovation when others used of the factories were focused on making profit goods in cities

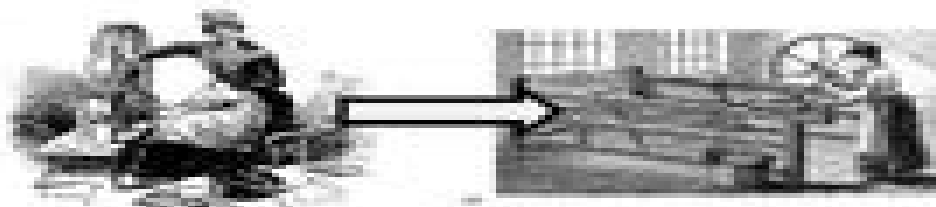

(a) Rural Home (before Industrialization)

(b) Urban Area (after)

- increased technology over rural areas

Industrialization made things – CHEAPER, FASTER, AND MORE EFFICIENT!

3 Colonial Regions

Label all the 13 colonies on that map – should be:
New England Colonies: Green

Middle Colonies: Yellow
Southern Colonies: Red

If you do not have those colors, shading any color is fine as long as they are distinctly different.

- The 13 colonies were located along the Atlantic Coast and relied on water trade and transportation.
 - Appalachian Mts.:** Western border of the colonies (shown on the map)
 - Atlantic Ocean:** Eastern border of the colonies. (Shown on the map)
- For the colonies the land is geography determined how the colonies earned money.
***Geography affects the economy.

Teacher Key

Includes a separate key with answers and visuals! Use this as a teacher key – OR print sections to use for in class review.
