Narcissistic Pursuit of Perfection Arnold Rothstein,2018-05-01 This book views the role of narcissism in analytic theory beginning with the writings of Freud and examines the conceptual changes that occurred with the development of ego psychology and object relations theory With this revised edition the author expands his discussion of patients considered to be narcissistic personality disordered in order to discuss the issue of clinical limits This is illustrated by case material from two attempts at the analysis of patients with latent psychosis Discussions of countertransference and humiliation have also been added *Psychoanalysis* Burness E. Moore,Bernard D. Fine,1999-11-01 In this important book experts in the field survey current psychoanalytic theory discussing its principles technical aspects clinical phenomena and applications The book is both an introduction to and a statement of mainstream American psychoanalysis today and will be a standard reference for psychoanalytic trainees authors and teachers Under the direction of the editors and a distinguished panel of advisors the contributors present a broad overview of more than forty key clinical and theoretical concepts They define each concept trace its historical development within psychoanalysis describe its present status discuss criticisms and controversies about it and point out emerging trends A selected reference list is supplied for each concept Together the articles provide a systematic examination of the theoretical infrastructure of psychoanalysis The book has been designed as a companion volume to *Psychoanalytic Terms and Concepts* a glossary edited by Drs Moore and Fine under the auspices of the American Psychoanalytic Association **"I'm not Perfect - I'm only Human" - How to Beat Perfectionism** Darlene

Lancer,2017-06-27 Perfectionism can be a blessing or a curse When it helps us it lifts our mood and we can achieve significant accomplishments But perpetually seeking an illusion can have serious consequences It can become a painful inescapable trap Its self sabotaging side effects undermine our goals and creativity and spill over onto our co workers and loved ones damaging our relationships At worse it can be dehumanizing and compromise our ability to feel love and experience joy Fortunately it s possible to beat perfectionism Learn about types of perfectionists both positive and negative myths they hold and how their relationships are affected Other disorders are distinguished Psychological genetic and environmental causes of perfectionism are explained with examples of symptoms thoughts and behaviors Ten chapters provide steps and exercises to create change and find self acceptance Take a personality test and get parenting tips to avoid passing on perfectionism **The Psychiatric Interview in Clinical Practice** Roger A. MacKinnon,Robert Michels,Peter J.

Buckley,2015-10-20 Much has changed in the critical interval since the last edition of *The Psychiatric Interview in Clinical Practice* was published This new third edition provides an up to date examination of the psychiatric interview that reflects changes introduced in DSM 5 while continuing to recognize that describing symptoms and establishing a diagnosis should command only a portion of the clinician s attention and that a patient s personal history must be elicited and character structure addressed in the clinical engagement Significant advances have been made in biological psychiatry and research in genetics cognitive neuroscience psychopharmacology brain imaging and the neurosciences in general continues apace informing the culture of psychiatry and providing growing insight into the etiology of mental illnesses However the book reflects the authors belief that virtually all major psychiatric disorders are complex amalgams of genetic disposition and environmental influences In this context the psychiatric interview is a vitally important dialogue and effective strategies are modeled through the use of clinical vignettes taken from the authors experience Topics and features of this new edition include An updating of diagnostic considerations to reflect the publication of DSM 5 A chapter on interviewing the patient with dissociative identity disorder DID which is now recognized as an entity distinct from other psychopathological conditions and rooted in childhood trauma The frequency of DID in the ambulatory setting has been repeatedly demonstrated and speaks to the need to accurately diagnose and treat this often debilitating disorder An entirely updated chapter on interviewing the traumatized patient A section on interviewing the patient of different background The book emphasizes that the subjective experience of being different is universal and that psychiatry is enriched by recognizing and exploring that experience validating its existence and attempting to understand how it influences the patient s life Continued emphasis on and inclusion of relevant case vignettes drawn from the authors clinical experiences Structural consistency across chapters with sections on psychopathology and psychodynamics differential diagnosis management of the interview transference and countertransference and so forth which reinforces skills acquisition and makes the text easy to use By creating a text that is aligned with DSM 5 while continuing to stress the importance of eliciting the patient s subjective experience and achieving a therapeutic dialogue the authors of *The Psychiatric Interview in Clinical Practice* have done a great service to the profession and provided much needed guidance to mental health clinicians and trainees Working with Resistance Martha

Stark,1995-04-01 Dr Stark conveys to the reader not only how a psycho dynamic therapy is practiced but how it works as well Her writing style conveys the same clarity and steadiness so apparent in her clinical work She successfully integrates the complexity of the most useful contemporary classical object relations and self psychological perspectives with her rich clinical material *Oxford Textbook of Suicidology and Suicide Prevention* Danuta Wasserman,2020-11-13 Approximately 1 million people commit suicide world wide annually and around 10 million attempt suicide each year Suicide is a major public health problem throughout the world and major efforts are currently being made to help reduce these numbers However suicide is the result of complex interactions between a range of factors including historical psychological cultural biological

and social and any approach to treating the problem of suicide has to consider all these factors This new edition of the Oxford Textbook of Suicidology and Suicide Prevention has been thoroughly updated and expanded since publication of the first edition in 2009 This comprehensive resource covers all aspects of suicidal behaviour and suicide prevention from a number of different perspectives including its underlying religious and cultural factors its political social and economic causes its psychiatric and somatic determinants and its public health impacts The new edition includes several new clinically focussed chapters devoted to major psychiatric disorders and their relation to suicide including mood and anxiety disorders substance abuse psychosis schizophrenia bipolar disorder eating disorders and personality disorders It also includes a fully updated section on psychometric scales used for measuring suicidal behaviour and instruments used in suicide preventative interventions Part of the authoritative Oxford Textbooks in Psychiatry series this second edition will continue to serve as the key reference source for both researchers and professionals working in the areas of suicidology and suicide prevention including psychiatrists clinical psychologists public health specialists and neuroscientists

Narcissism and the Literary Libido Marshall W. Alcorn Jr., Marshall W. Alcorn, 1997-07 What is it that makes language powerful This book uses the psychoanalytic concepts of narcissism and libidinal investment to explain how rhetoric compels us and how it can effect change Synthesizing the ideas of theorists as diverse as Aristotle and Althusser Kohut and Derrida Alcorn explores the relationships between language and subjectivity The works of Joseph Conrad James Baldwin William Faulkner Arthur Miller D H Lawrence Ben Jonson George Orwell and others are the basis of this thoughtful analysis of the rhetorical resources of

literary language Using Freudian post Freudian and Lacanian theory Alcorn Investigates the power by means of which literary texts are able to fashion new and distinctly rhetorical experiences for readers He shows how the production of literary texts begins and ends with narcissistic self love and also shows how the reader s interest in these texts is directed by libidinal investment
