Teaching IFRS Richard M.S. Wilson, Ralph W. Adler, 2013-09-13. The increasing pace of global conformance towards the adoption of International Financial Reporting Standards (IFRS) highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS. *Teaching IFRS* offers expert descriptions of and insights into the IFRS convergence process from a teaching and learning perspective. Hence, this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world. The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption. Drawing upon the experiences of those who have sought to introduce IFRS-related classroom innovations and the associated student outcomes achieved therefrom, the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS-related teaching resources to support those courses. This book was originally published as a special issue of *Accounting Education: An international journal*.

Intermediate Accounting, Volume 2 Jerry J. Weygandt, Donald E. Kieso, Irene M. Wiecek, Terry D. Warfield, Bruce J. McConomy, 2022-03-14. *Intermediate Accounting* 13th Canadian Edition has always been and continues to be the gold standard that helps connect students to the what, the why, and the how of accounting information. Through new edition updates, you will be able to spark efficient and effective learning and inspire and prepare students to be the accounting professionals of tomorrow. To help develop a deeper understanding of course concepts and move beyond basic understanding, students work through a high-quality assessment at varying levels, helping them learn more efficiently and create connections between topics and real-world application. This course also presents an emphasis on decision-making through Integrated Cases and Research and Analysis questions that allow students to analyze business transactions, apply both IFRS and ASPE, and explore how different accounting standards impact real companies. Throughout the course, students also work through a variety of hands-on activities, including Data Analytics Problems. Analytics in Action features Excel templates and a new emphasis on sustainability, all within the chapter context. These applications help students develop an accounting decision-making mindset and improve the professional judgement and communication skills needed to be successful in the evolving accounting world.
