What Teachers Need to Know Matthew Bruce Etherington, 2017-03-31 Every generation has sought to make teaching and learning more inclusive and equitable but pesky questions always remain such as how can teaching and learning be conducted in ways that satisfies and respects everyone What are the parameters of an inclusive pedagogy Who defines its principles How should these principles be taught and by whom And by what authority shall they be grounded These types of thorny questions occupy the essence of educators and the authors of this book This book is about teachers educators and topics related to inclusion Teachers and educators have a lot to know therefore the topics are broad and relevant to the times What should teachers know about special needs religion and spirituality Aboriginality the environment tolerance and school choice Although teachers have knowledge of their subject matter knowledge alone is not sufficient They must know and understand how people learn A teacher must also care deeply about who they teach And this teacher knowledge grows and changes over time as teachers become more experienced informed skilled and wiser At the same time no teacher preparation will be sufficient because there will always be discussions that were never had and knowledge that was never shared Time has its costs and there is only so much a formal education can prepare someone This book helps to satisfy a cavity in learning for teachers and educators in general

The Whole School Library Learning Commons Judith Anne Sykes, 2016-08-29 Introduce your teachers librarians and administrators to the roles and responsibilities of educators in advocating a whole school library learning commons using this step by step guide for creating shared learning space in your school It is no surprise that technology has shifted the way we educate bearing on how what and where we learn This guide lays the framework for helping turn your school library into a whole school library learning commons WSLLC a space where traditional academics merge with the latest technologies to engage learners in a way never before realized Author Judith Anne Sykes contends that since the WSLLC philosophy allows staff and students to co create knowledge in a shared space it is more effective than the traditional approach Sykes addresses the differences between a school library and a WSLLC provides reasons to champion its creation in your institution and discusses how to use mentoring as a means to sustain its survival The book explores the roles and responsibilities of
