Vba Developer S Handbook:

VBA Developer's Handbook Ken Getz, Mike Gilbert, 2006-02-20 WRITE BULLETPROOF VBA CODE FOR ANY SITUATION

This book is the essential resource for developers working with any of the more than 300 products that employ the Visual Basic for Applications programming language. Written by recognized VBA experts, it provides detailed coverage of a wide range of specific VBA programming challenges. Its careful step by step instructions and thousands of lines of code offer answers while teaching you to devise new and creative solutions. The instruction applies equally to all VBA environments whether you are building standalone applications or customizing commercial products using their built in VBA programmability. Coverage includes: Manipulating text, numbers and dates; Using automation to control other applications; Creating objects using VBA class modules; Using standard search and sort algorithms from within VBA; Creating standard dynamic data structures including linked lists, binary trees, stacks and queues; Working with Windows system information including memory status, screen info, mouse, keyboard and power status; Working with Windows Registry data; Retrieving and setting Windows networking information; Working with the Windows file system; Iterating through folders, creating and deleting files; Adding sound and movies to VBA apps using Windows multimedia extensions; Tapping the system capabilities provided by the Windows Scripting Runtime library; Writing add ins for the Visual Basic environment. Note: CD ROM, DVD and other supplementary materials are not included as part of eBook file.

Visual Basic Language Developer's Handbook Ken Getz, Mike Gilbert, 2000. This follow up to the successful VBA Developer's Handbook is a significant revision because it targets a much broader audience and focuses on all the new improved programming techniques that aren't available from any other source. The book and CD include hundreds of reusable functions and classes that readers can use in their own programming projects with little or no modification.
