feared apocalyptic politics Niccol Machiavelli in the midst of Italy's vicious power struggles Thomas Hobbes during England's bloody civil war and Hans Morgenthau at the dawn of the thermonuclear age all saw the temptation to prophesy the end of days Each engaged in subtle and surprising strategies to oppose apocalypticism from using its own rhetoric to neutralize its worst effects to insisting on a clear-eyed tragic acceptance of the human condition Scholarly yet accessible this book is at once an ambitious contribution to the history of political thought and a work that speaks to our times Creative Conflict in African American Thought Wilson Jeremiah Moses, 2004-05-10 Building upon his previous work and using Richard Hofstadter's *The American Political Tradition* as a model Professor Moses has revised and brought together in this book essays that focus on the complexity of and contradictions in the thought of five major African American intellectuals Frederick Douglass Alexander Crummell Booker T Washington W E B DuBois and Marcus M Garvey In doing so he challenges both popular and scholarly conceptions of them as villains or heroes In analyzing the intellectual struggles and contradictions of these five dominant personalities with regard to individual morality and collective reform Professor Moses shows how they contributed to strategies for black improvement and puts them within the context of other currents of American thought including Jeffersonian and Jacksonian democracy Social Darwinism and progressivism *The Evolution of Modern Grand Strategic Thought* Lukas Milevski, 2017-07-04 In strategic studies and international relations grand strategy is a frequently invoked concept Yet despite its popularity it is not well understood and it has many definitions some of which are even mutually contradictory This state of affairs undermines its usefulness for scholars and practitioners alike Lukas Milevski aims to remedy this situation by offering a conceptual history of grand strategy in the English language analysing its evolution from 1805 to the present day in the writings of its major proponents In doing so he seeks to clarify the meaning and role of the concept both theoretically and practically and shed light on its continuing utility today **Altchek's Diagnosis and Management of Ovarian Disorders** Liane Deligdisch, Nathan G. Serra, Scott Jordan, 2019-12-01 Where will Muslim societies be tomorrow The world is increasingly and constantly changing making it hard to keep up This makes the state much more dire and troublesome for those already marginalised particularly Muslim societies Normal is no longer capable of upholding the promise of tomorrow s certainty These are postnormal times In this storm of ignorance and uncertainty Muslim societies stand to lose the most But this is not destiny In the cultivation of a new type of literacy futures literacy there resides a hope Muslim Societies in Postnormal Times offers an alternative where we can rescue and decolonise our futures Sardar Serra and Jordan take an open and plural approach to the future revealing the true potentials that lie before us Through detailed analysis of contemporary trends the road to destruction is revealed Through identifying and exploring emerging issues agency through options can allow for positive change And in the extrapolation of these ideas into scenarios the authors pave the way for us to navigate our own preferred futures Their study challenges the reader to think about the future in a new way redefining the monolithic future as three tomorrows Extended Present Familiar Futures and Unthought Futures along the way ever watchful for Black Swans Black Elephants and the illustrious Black Jellyfish that could disrupt the path ahead The authors pull no punches in critically evaluating the possibilities and nightmares that could potentially befall Muslim societies Through a display of creativity and imagination this book looks beyond the conventional to illuminate impacts in the context of the complex interconnected world we find ourselves in This informative and enlightening text will push readers to see beyond popular yet native notions of present and future In the exposition of the reader s ignorance and uncertainty they will begin to look for the unthought and take agency in recolonising and navigating their preferred tomorrow
