*Power*, 1918      *Main Currents in Modern Thought*, 1971      **Military Thought**, 2011      *The Mammalian Auditory Pathway: Neurophysiology* Richard R. Fay, 2013-12-01 The Springer Handbook of Auditory Research presents a series of comprehensive and synthetic reviews of the fundamental topics in modern auditory research It is aimed at all individuals with interests in hearing research including advanced graduate students postdoctoral researchers and clinical investigators The volumes will introduce new investigators to important aspects of hearing science and will help established investigators to better understand the fundamental theories and data in fields of hearing that they may not normally follow closely Each volume is intended to present a particular topic comprehensively and each chapter will serve as a synthetic overview and guide to the literature As such the chapters present neither exhaustive data reviews nor original research that has not yet appeared in peer reviewed journals The series focusses on topics that have developed a solid data and conceptual foundation rather than on those for which a literature is only beginning to develop New research areas will be covered on a timely basis in the series as they begin to mature      *Light*, 1906      *Power and The Engineer*, 1918      **Process Thought and Roman Catholicism** John Becker, Marc A. Pugliese, 2022-03-21 This collection of essays explores convergences and divergences between process thought and Roman Catholicism with the goal of identifying reasons for why process philosophy and theology has not had the same impact in Roman Catholic circles as in Protestantism and of constructively navigating avenues of promising engagement between Process thought and Roman Catholicism In creatively considering the Roman Catholic tradition from the vantage point of Process thought different theoretical perspectives are brought to bear on Catholic characteristics of historical theology fundamental theology systematic theology moral theology social justice and theology of religions While the contributors draw upon a broad range of resources from the disciplines of the physical and social sciences philosophy and ethics from a process perspective the primary methodology employed is theological reflection      *English Mechanic and World of Science*, 1881      *Trust in Early Modern International Political Thought, 1598-1713* Peter Schröder, 2017-03-06 This book examines how trust relates to the main political concepts sovereignty reason of state and natural law of seventeenth century discourse      *Presidential Leadership in Feeble Times* Mark Zachary Taylor, 2024 Do presidents matter for America's economic performance The Gilded Age presidents of the late nineteenth century seem like weak and forgettable leaders but they hold the key to answering this question precisely because of their supposed impotence In *Presidential Leadership in Feeble Times* Mark Zachary Taylor tells the story of three decades of Gilded Age economic upheaval with a focus on presidential leadership why did some presidents crash and burn while others prospered Neither education nor experience mattered much Nor did brains personal ethics or party affiliation Instead Taylor finds that a president's effectiveness as an economic leader flows primarily from their vision for the country and their leadership style
