

Culture of Learning: Create a classroom culture where student agency, mathematical identity, and belonging contribute to students' mathematical success.			
<ul style="list-style-type: none">Students and their teacher demonstrate a joy for learning through positive relationships and strong classroom culture that is responsive to student interests, experiences, and approaches to learning.Students demonstrate self-management and there is a classroom culture of student choice and autonomy.Students demonstrate positive dispositions and beliefs about their ability to participate and perform effectively in mathematics and their ability to use mathematics as a problem-solving tool in powerful ways across the contexts of their lives.Students are engaged in the mathematics of the lesson from start to finish; there is intentionality about how time is used.	Yes No		
Core Action One: Focus, Coherence, and Rigor at the Center of Instruction			
A. A majority of the lesson is spent on the grade/course-level cluster(s), grade/course-level content standard(s), or part(s) thereof. Mathematical Learning Goal: Standard(s) addressed in this lesson:	Yes No		
B. The curriculum materials are used as designed to connect developing mathematical ideas to math content within or across grades/courses through the use of tasks, examples, multiple representations, discussion, and instructional techniques.	Yes No		
C. The curriculum materials are used as designed to intentionally target the aspect(s) of Rigor (conceptual understanding, procedural skill and fluency, application) called for by the standard(s) being addressed in the lesson. Which aspect(s) of Rigor are targeted in the standard(s) addressed in the lesson? Which aspect(s) of Rigor are targeted in the instruction?	Yes No		
Core Action One Summary: The majority of the mathematics content of the lesson is grounded in materials and the delivery of the lesson meets the intent of grade-level standard(s) and leverages mathematical coherence and the appropriate aspect(s) of rigor to develop student understanding.			
Core Action Two: Teacher Strategies to Develop Math Meaning			
A. The teacher uses a variety of explanations, representations, tasks, examples and/or instructional techniques are used to make the mathematics of the lesson explicit.	Yes Somewhat	Mostly Not Yet	
B. The teacher shares multiple students' representations and/or solution methods and connects to students' understanding of the content, reduces student misconceptions, and ensures the mathematics is explicit.	Yes Somewhat	Mostly Not Yet	
C. The teacher provides feedback and adjusts the lesson in response to student understanding. Questions and tasks surface misconceptions and opportunities for growth.	Yes Somewhat	Mostly Not Yet	
D. The teachers uses internal summaries to pause and ensure understanding making references to student work and using discussions and questions reinforce the concepts of the lesson.	Yes Somewhat	Mostly Not Yet	
Core Action Two Summary: The teacher uses instructional strategies to ensure all students progress toward mastery of the mathematical concepts addressed in the lesson.	Yes Somewhat	Mostly Not Yet	
Core Action Three: Provide all students with opportunities to do mathematical thinking within the lesson.			
Some or most of the indicators and student behaviors should be observable in every lesson, though not all will be evident in every lesson.			
A. The teacher provides opportunities and access for all students to work with and practice grade-level problems and exercises. Students work with and practice grade-level problems and exercises.	Yes Somewhat	Mostly Not Yet	
B. The teacher cultivates reasoning and problem solving by supporting students productive struggle. Students reason, make sense of mathematics, and persevere in solving problems in the face of difficulty.	Yes Somewhat	Mostly Not Yet	
C. The teacher poses questions and problems that prompt students to explain their thinking in a variety of ways about the content of the lesson. Students share their thinking in a variety of ways about the content of the lesson beyond just stating answers.	Yes Somewhat	Mostly Not Yet	
D. The teacher provides opportunities for student conversations where students talk about each other's thinking. Students discuss and ask questions about each other's thinking, in order to clarify or improve their own mathematical understanding, justifications, and explanations.	Yes Somewhat	Mostly Not Yet	
E. The teacher connects and develops students' informal and/or home language and mathematical ideas to precise mathematical language and ideas. Students use increasingly precise mathematical language and ideas as they reason and explain their thinking.	Yes Somewhat	Mostly Not Yet	
Core Action Three Summary: Students do and share their mathematical thinking within the lesson to develop a deeper understanding of the mathematical concepts addressed in the lesson.	Yes Somewhat	Mostly Not Yet

Tn Instructional Pacing Guide:

Inquiry, Data, and Understanding Lorin W. Anderson, 2023-05-31 *Inquiry Data and Understanding* is a reflective collection of papers in which Lorin Anderson offers his personal perspective on developments in educational research over thirty years. Following an introductory chapter in which educational research is defined as disciplined inquiry, the remaining chapters are divided into four sections: time and learning factors influencing educational effectiveness; international perspectives; and the nature and purpose of educational research. Each section contains an introduction that places the chapters in that section in a historical and personal context. The fourth section, which concludes the book, summarizes four lessons that were learned about becoming a researcher. Based on these lessons, the final chapter describes four needs that must be met if school and classroom research is to move forward: The need for concept-based research; The need to put students back into the equation; The need to stop focusing on correlates of student achievement; The need for research on alterable variables. Every Teacher a Leader Barbara B. Levin, Lynne Schrum, 2016-05-06 Discover the secrets of successful teacher leadership. Whether you're a teacher who's ready to take on new roles or an administrator looking to develop strong leaders, this content-driven handbook is here to help you make distributed school leadership a reality. Inside you'll find specific how-tos for the essential skills teacher leaders need most: running meetings, teaching colleagues, providing feedback, conducting needs assessments, delivering effective professional development, resolving conflicts, employing technology, and more. The book features well-tested content and activities, reflective writing prompts, scenarios for discussion, self-evaluations, two companion guides (one for teachers and one for administrators). Improving Teaching Effectiveness: Implementation Brian M. Stecher, Michael S. Garet, Laura S. Hamilton, Elizabeth D. Steiner, Abby Robyn, Jeffrey Poirier, Deborah Holtzman, Eleanor S. Fulbeck, Jay Chambers, Iliana Brodziak de los Reyes, 2016-06-06 To improve the U.S. education system through more effective classroom teaching in school year 2009-2010, the Bill and Melinda Gates Foundation announced its Intensive Partnerships for Effective Teaching. Researchers from the RAND Corporation and the American Institutes for Research evaluated implementation of key reform elements of the program in three public school districts and four charter management organizations. *Great Leaders Equal Great Schools* Autumn Cypres, 2013-01-01 The networks of Tennessee politicians, school leaders, and academics are rife with significant contributors to the national fabric of educational reform. This cadre includes Former White House Chief of Staff Howard Baker, United States Senator Bill Frist, currently Chairman of the Tennessee State Collaborative on Reforming Education, former United States Secretary of Education Lamar Alexander, currently United States Senator and Conference Chair of the Republican Party, and current Governor Bill Haslam. This network has deep current ties to The University of Tennessee, the Knoxville area, and school systems across the state of Tennessee. The Center for Educational Leadership is a highly funded, highly visible model for education reform throughout the state of Tennessee. This 3-book series will serve as a calling card for

all activities that The Center for Educational Leadership is involved in around the state of Tennessee and the United States. This includes all school leadership summits for policy makers, practitioners, scholars, and legislators. It represents the shared vision and commitment of educational leaders, politicians, educational reformers, and legislators. This book will be distributed to school leaders, professional development coaches, teacher unions, scholars at several Tennessee institutions of higher education, and members of the Tennessee legislature and Department of Education. The audience for this series is primarily school leaders and scholars who are launching and designing new programs or revising and strengthening existing programs. However, those who are discussing policy at the local, state, and national level would be interested in the information given within these pages as it relates clearly to their work in educational leadership.

Research in Education, 1974 Title List of Documents Made Publicly Available, 1987 **Prevention Science in School Settings** Kris Bosworth, 2015-11-24

This straightforward volume makes a strong practical research-based case for integrating prevention programs into middle and high schools. Written by experts in prevention science and education, it examines educational goals and prevention of risky behaviors as parallel and complementary processes and provides evidence for health-promoting schools as a critical forum for student development. Chapters show the benefits of this collaboration as instructors engage with prevention content, prevention scientists study schools and create interventions, and counselors develop and implement activities resulting in improved academic, social, and health outcomes. Examples of successful prevention strategies address personal and public health issues as varied as substance abuse, dating violence, dropping out, and suicide. Among the topics covered: Engaging school leaders in prevention; Developing school-based prevention curricula; Scaling up evidence-based prevention interventions and practices; Conducting prevention research and evaluation in schools; Promoting a positive school climate and culture; Reducing disruptive behavior, violence, and bullying. Child and school psychologists, administrators, teachers, school counselors, and prevention specialists will find significant common ground in *Prevention Science in School Settings*. The breadth and depth of coverage point to new multidisciplinary directions in health education, school climate, culture, and positive youth development.

On the Rocketship Richard Whitmire, 2014-05-15. The face of American education is evolving and the roadmap is clear. *On the Rocketship: How Top Charter Schools are Pushing the Envelope* examines the rise and expansion of leading charter school networks. *Rocketship* revealing the secret sauce that makes a successful program. A strong narrative with a timely message, the book explores how *Rocketship* started and the difficulties encountered as it expands. Designing schools for children who have been failed by traditional schools is extremely challenging work. Setbacks are inevitable. Later in the book, the narrative shifts to the national picture, exploring how high-performing charter schools are changing the education landscape in cities such as Denver, Memphis, and Houston. The book emerges just as charter schools are running into stiff political opposition in New York City and elsewhere. Even in San Jose, *Rocketship's* home base, the pushback against charter schools is gaining speed. *On the Rocketship* becomes a valuable resource for explaining what's at

stake in this battle Lose these schools in New York San Jose and other cities and low income and minority students lose their best shot at a quality education Written by a veteran journalist who followed Rocketship through a school year the book explores some of the factors that make Rocketship and other charters successful including the blended learning that was pioneered at charter schools especially Rocketship Many schools around the country are looking to Rocketship as a model for implementing blended learning The interplay between charter schools and blended learning is setting a change in motion and the American education system is ready to evolve On the Rocketship details this phenomenon providing insights for educators across the nation

School Turnaround in Secondary Schools Coby V. Meyers,Marlene J. Darwin,2019-12-01 In the continuing quest to turnaround the lowest performing schools rapid and sustainable reform or school turnaround seems most elusive for secondary schools Secondary schools are rife with challenges due to their wide ranging mission and organizational complexity With the continued emphasis on college and career readiness and the vast learning possibilities enhanced by technology our third book in this series Contemporary Perspectives on School Turnaround and Reform focuses on rapid school turnaround and reform in secondary schools In this edited volume researchers and scholars consider the doubly perplexing challenge of school turnaround or the rapid improvement of the lowest performing secondary schools Although there is some evidence that school turnaround policy can impact student achievement scores research across international contexts seldom identifies schools that substantially changed student learning trajectories and sustained them Separately many societies have found improving secondary schools a relatively intractable problem for multiple reasons including school size and complexity the micropolitics of teaching and leading within them and cumulative widening student achievement gaps In combination there are almost no examples of low performing secondary schools turning around The chapters in this book begin to offer some hope about how policymakers practitioners and researchers might begin to reconceptualize how they engage in and undertake the work of rapidly improving low performing secondary schools The authors provide theoretical and conceptual advancements offer lessons learned from both successful and unsuccessful initiatives and address practical issues with potentially accessible ways forward

Tn Instructional Pacing Guide: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Tn Instructional Pacing Guide : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
