These intelligences aren't fixed at birth. They can be nurtured and strengthened meaning that in the right environment kids get smarter. Seven Times Smarter, an invaluable resource for parents, teachers, and caregivers, provides the perfect way to create this environment. Unlike other craft or activity books that just fill time and keep kids busy, Seven Times Smarter prompts kids aged six to fourteen to work their brains and cultivate new skills using recycled or low-cost materials found in every home and enjoy it. It offers an exploration of what it means to be smart, checklists to recognize the seven intelligences in your child, book lists to develop and celebrate all the ways your child is smart, and fifty creative, constructive activities that are good for kids playing alone or in a group, supervised or independently, including Memory Tours. If a memory book is too straightforward for your artistic child, try an unbook, a memory box, or a calendar. Hanging Gardens, Indoors or out, even the smallest garden plot can yield a bumper crop of mathematical, linguistic, scientific, and kinesthetic skills. The Boredom Brigade: Boredom is a springboard for imagination; imaginary structures, identities, occupations, and friends are just some of the ways kids develop their inter and intra-personal intelligences. Junk Yard Genius: There's an education in junk; in fact, it's easy to turn your broken radio, alarm clock, fan, blow dryer, or scale into a project that could fascinate kids for days.
