**Reclaiming the Petition Clause** Ronald J. Krotoszynski, 2012-04-24 Since the 2004 presidential campaign when the Bush presidential advance team prevented anyone who seemed unsympathetic to their candidate from attending his ostensibly public appearances it has become commonplace for law enforcement officers and political event sponsors to classify ordinary expressions of dissent as security threats and to try to keep officeholders as far removed from possible protest as they can Thus without formally limiting free speech the government places arbitrary restrictions on how when and where such speech may occur *Liquor and the Liberal State* Dan Malleck, 2022-05-01 Cultural pastime profitable industry or harmful influence on the nation Liquor was a tricky issue for municipal provincial and federal governments after Confederation Liquor and the Liberal State traces how the Ontario provincial government's takeover of liquor regulation in the late nineteenth and early twentieth centuries involved both discrete local politics and expansive constitutional questions Dan Malleck explores how notions of individual freedom equality and property rights were debated challenged and modified in response to a vocal prohibitionist movement and equally vocal liquor industry While the liquor licensing regime helped build a vast patronage base for the governing Liberal Party some believed it exceeded the constitutional authority of the province The drink question became as political as it was moral a key issue in the establishment of judicial definitions of provincial and federal rights and ultimately in the crafting of the modern state This lively and meticulous work demonstrates the challenges governments faced when dealing with the seemingly simple but tremendously complicated alcoholic beverage

**Art and Modern Copyright** Elena Cooper, 2018-08-16 This book is the first in depth and longitudinal study of the history of copyright protecting the visual arts Exploring legal developments during an important period in the making of the modern law the mid nineteenth to early twentieth centuries in relation to four themes the protection of copyright authors painters photographers and engravers art collectors sitters and the public interest it uncovers a number of long forgotten narratives of copyright history including views of copyright that differ from how we think today As well as considering the distinct nature of the contribution of copyright to the history of the cultural domain accounted for by scholars of art history and the sociology of art this book examines the value to lawyers and policy makers today of copyright history as a destabilising influence in taking us to ways of thinking that differ from our own history can sharpen the critical lens through which we view copyright debates today **Urban Government and the Early Stuart State** Catherine F. Patterson, 2022 Examines relations between centre and localities in seventeenth century England by looking at early Stuart government through the

lens of provincial towns This book investigates relations between centre and localities in seventeenth century England by looking at early Stuart government through the lens of provincial towns Focusing particularly on incorporated boroughs it emphasises the distinctive circumstances that shaped governance in provincial towns and the ways towns contributed to the state Royal charters of incorporation legally defined patterns of self government and local liberties in corporate boroughs but they also created a powerful bond to the crown The book argues that a dynamic tension between local autonomy and connection to the centre drove relations between towns and the crown in this period as borough governments actively sought strong ties with central authority while also attempting to preserve their chartered liberties It also argues that the 1620s and 1630s ushered in new patterns in the crown s relations with incorporated boroughs as Charles I s regime hardened policies towards urban localities Based on extensive original research in both central government records and the archives of a wide range of provincial towns the book covers critical aspects of interaction between towns and the crown including

Parvulescu, 2015-06-08 An analysis of films produced in post World War II Eastern Europe featuring the trope of the orphan and the issues these characters addressed Unlike the benevolent orphan found in Charlie Chaplin s *The Kid* or the sentimentalized figure of Little Orphan Annie the orphan in postwar Eastern European cinema takes on a more politically fraught role embodying the tensions of individuals struggling to recover from war and grappling with an unknown future under Soviet rule By exploring films produced in postwar Hungary the German Democratic Republic Czechoslovakia Romania and Poland Constantin Parvulescu traces the way in which cinema envisioned and debated the condition of the post World War II subject and the new man of Soviet style communism In these films the orphan becomes a cinematic trope that interrogates socialist visions of ideological institutionalization and re education and stands as a silent critic of the system s shortcomings or as a resilient spirit who has resisted capture by the political apparatus of the new state By using the trope of an orphan Constantin Parvulescu demonstrates how films made in countries such as Hungary East Germany Poland Czechoslovakia and Romania reflected on the specific problems affecting Eastern Europe after 1945 such as the loss of population economic backwardness the legacy of the Holocaust while engaging in wider debates especially the superiority of

socialism over capitalism Economically and elegantly written it demonstrates that cinema produced in the periphery can be central to our understanding of films as ideological tools This is one of the best books on Eastern European cinema ever written Ewa Mazierska University of Central Lancashire Groundbreaking The author s comparative transnational perspective in chapters devoted to close textual analyses of each narrative demonstrates the value of reading film as a primary source for understanding the relationships among state power intergenerational trauma and revolutionary subjectivity Parvulescu s highly original portrayal of a landscape of parentless children evokes the trauma of war and the specificity of the socialist experiment in the former Eastern Bloc Catherine Portuges University of Massachusetts Amherst Parvulescu has taken a highly innovative approach to socialist and post socialist cinema in the region and one that is vividly illustrated by a superb selection of films Studies in European Cinema *Political Campaigning on the Web* Sigrid Baringhorst, Veronika Kneip, Johanna Niesyto, 2017-11-15 Drawing upon a common conceptual framework of political webcampaigning the book offers theoretical reflections on Internet based campaign politics It provides a comparative overview on the use of the Internet as a campaigning instrument by diverse intermediary political actors Taking the empirical findings of Internet appropriations into consideration the book discusses the impact of political webcampaigning on transnational democracy and the transformation of public spheres Death of the Covenant Code: Capital Punishment in Old Greek Exodus in Light of Greco-Egyptian Law Joel Korytko, 2023-10-09 Many laws in the Old Greek translation of the Covenant Code do not say the same thing as the Hebrew text In the past various idiosyncrasies in the Greek translation of laws that involve the death penalty had been glossed over and considered stylistic variations or grammatical outliers However when the text linguistic features of the Greek translation are compared to contemporary literary documentary and legal Greek sources new readings emerge cursing a parent is no longer punishable by death a law about bestiality becomes a law about animal husbandry the authority of certain legal commands is deregulated This work explores these and other new readings in comparison with contemporary Greco Egyptian law
