Time Without Becoming Philosophy:

Time without becoming Aa. Vv.,2014-12-11T00:00:00+01:00 Time without becoming is the text of a lecture Quentin Meillassoux gave at the Middlesex University in May 2008 He makes a summary of the arguments he employed in *After Finitude* to overcome correlationism from the inside and to dismiss philosophies of becoming such as absolute idealism and vitalism In particular he explains the specificity of his speculative materialism by supporting the thesis of the reciprocal exteriority of matter and mind In her contribution Anna Longo challenges this perspective taking into account the issue of the genesis of the transcendental in Gilles Deleuze's philosophy *Heidegger and the Emergence of the Question of Being* Jesús Adrián Escudero,2014-12-18 Heidegger and the Emergence of the Question of Being offers a new updated and comprehensive introduction to Heidegger's development and his early confrontation with philosophical tradition theology neo-Kantianism vitalism hermeneutics and phenomenology up to the publication of *Being and Time* in 1927 The main thread is the genealogy of the question of the meaning of being Alongside the most recent scholarly research this book takes into account the documentary richness of Heidegger's first Freiburg 1919 1923 and Marburg 1923 1928 lectures conferences treatises and letters and addresses the thematic and methodological richness of this period of Heidegger's intellectual life and offers a coherent and unified interpretation of his earlier work This book conveys Heidegger's thought in a well organized impartial manner without deviating too far from Heideggerian vocabulary It will be invaluable for upper level undergraduates graduate students of philosophy studying phenomenology continental and German philosophy

Romanticism and Speculative Realism Chris Washington, Anne C. McCarthy, 2019-01-24 Romanticism and Speculative Realism features a range of scholars working at the intersection of literary poetics and philosophy It considers how the writing of the Romantic era reconceptualizes the human imagination the natural world and the language that correlates them in radical ways that can advance current speculative debates concerning new ontologies and new materialisms In their wide ranging examinations of canonical and non canonical romantic writers the scholars gathered here rethink the connections between the human and non human world to envision speculative modes of social being and ecological politics Spanning historical and national frameworks from historical romanticism to contemporary post romantic ecology and from British and German romanticism to global modernity these essays examine life in all its varied forms in and beyond the Anthropocene

The Fiery Brook Ludwig Feuerbach, 2014-06-17 Ludwig Feuerbach's departure from the traditional philosophy of Hegel opened a door for generations of radical philosophical thinkers foremost among them the young Karl Marx Indeed much of early Marx is unintelligible without reference to certain fundamental Feuerbachian texts The selections in this volume few of them available in translation elsewhere reveal Feuerbach's fundamental criticisms of the old philosophy of Hegel and advance his own humanistic thought grounded in life and sensuality The reader can readily grasp the liberating influence of this unjustly neglected philosopher **What is History? and Other Late Unpublished Writings** Eric Voegelin, 1990 This

volume contains the most significant pieces of unpublished writing completed by Eric Voegelin during an important time of his career. Spanning the period from the early 1960s to the late 1970s, these selections supplement the body of work Voegelin published after the appearance of the first three volumes of *Order and History* in 1956 and 1957. The five texts included here are *What Is History*, *Anxiety and Reason*, *The Eclipse of Reality*, *The Moving Soul*, and *The Beginning and the Beyond*. In their introduction to the volume, Thomas A. Hollweck and Paul Caringella place these writings in their proper context and discuss the ways in which they reveal clues to the evolution of Voegelin's thought. In *What Is History*, Voegelin considers the development of a transcendent structure of history while simultaneously rejecting the notion that history can have a universal meaning. *Anxiety and Reason* focuses on Voegelin's critically important theory of historiogenesis, which links events in pragmatic history with legendary and mythical events leading back to the beginning of the cosmic order. In *The Eclipse of Reality*, Voegelin presents a critique of modernity by analyzing the work of Sartre, Schiller, Comte, and others. *The Moving Soul* is a thought experiment inspired by a remark Henry Margenau makes in *The Nature of Physical Reality*, which attempts to reformulate the connections between physics and myth. The most important of these essays is *Me, Beginning and the Beyond*. Here Voegelin meditates on the universality of experience formed by the tension of existence under God. Publication of these previously unpublished writings will enable scholars to trace the genesis of many of the concerns that occupied Voegelin during a period in which the conception of his main work was undergoing frequent and perhaps fundamental changes.

God Without Being Jean-Luc Marion, 2012-06-29 Jean-Luc Marion is one of the world's foremost philosophers of religion as well as one of the leading Catholic thinkers of modern times. In *God Without Being*, Marion challenges a fundamental premise of traditional philosophy, theology, and metaphysics: that God, before all else, must be. Taking a characteristically postmodern stance and engaging in passionate dialogue with Heidegger, he locates a God without Being in the realm of agape or Christian charity and love. If God is love, Marion contends, then God loves before he actually is. First translated into English in 1991, *God Without Being* continues to be a key book for discussions of the nature of God. This second edition contains a new preface by Marion as well as his 2003 essay on Thomas Aquinas. Offering a controversial contemporary perspective, *God Without Being* will remain essential reading for scholars and students of philosophy and religion. Daring and profound. In matters most central to his thesis, Marion's control is admirable, and his attunement to the nuances of other major postmodern thinkers is impressive. *Theological Studies*. A truly remarkable work. *First Things*. Very rewarding reading. *Religious Studies Review*.

Lost in Dialogue Giovanni Stanghellini, 2017 In this book, Stanghellini argues that to be

human means to be in dialogue with alterity that mental pathology is the outcome of a crisis of one's dialogue with alterity and that care is a method wherein dialogues take place whose aim is to re-enact interrupted dialogue with alterity within oneself and with the external world

Read, 2007-11-29 A key development in Wittgenstein Studies over recent years has been the advancement of a resolutely therapeutic reading of the *Tractatus* Rupert Read offers the first extended application of this reading of Wittgenstein encompassing Wittgenstein's later work too to examine the implications of Wittgenstein's work as a whole upon the domains especially of literature psychopathology and time Read begins by applying Wittgenstein's remarks on meaning to language examining the consequences our conception of philosophy has for the ways in which we talk about meaning He goes on to engage with literary texts as Wittgensteinian where Wittgensteinian does not mean expressive of a Wittgenstein philosophy but involves the literature in question remaining enigmatic and doing philosophical work of its own He considers Faulkner's

work as productive too of a broadly Wittgensteinian philosophy of psychopathology Read then turns to philosophical accounts of time finding a link between the division of time into discrete moments and solipsism of the present moment as depicted in philosophy on the one hand and psychopathological states on the other This important book positions itself at the forefront of a revolutionary movement in Wittgenstein studies and philosophy in general and offers a new and dynamic way of using Wittgenstein s works
