Australian National Bibliography ,1995 Subject Guide to Books in Print ,1971 *The Ballad of Abdul Wade* Ryan Butta,2022-07-26 When Afghan entrepreneur Abdul Wade first brought his camel trains to the outback he was hailed as a hero. Horses couldn't access many remote settlements especially those stricken by flood or drought and camel trains rode to the rescue time and time again. But with success came fierce opposition fuelled by prejudice. The camel was not even classed as an animal under Australian law and in a climate of colonial misinformation, hyperbole and fear, camel drivers like Wade were shown almost as little respect. Yet all the while for those in need the ships of the desert continued to appear on the outback horizon. After his interest was piqued by a nineteenth century photo of a camel train in a country town, Ryan Butta found himself on the trail of Australia's earliest Afghan camel drivers. Separating the bulldust from the bush poetry, he reveals the breadth and depth of white Australian protectionism and prejudice. Told with flair and authority, this gritty alternative history defies the standard horse powered folklore to reveal the untold debt this country owes to the humble dromedary, its drivers and those who brought them here. Fourie,2016-12-29 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American
