Water And Sanitation Manual:

Manual on the Human Rights to Safe Drinking Water and Sanitation for Practitioners Robert Bos,2016-08-15
The Manual highlights the human rights principles and criteria in relation to drinking water and sanitation It explains the international legal obligations in terms of operational policies and practice that will support the progressive realisation of universal access The Manual introduces a human rights perspective that will add value to informed decision making in the daily routine of operators managers and regulators It also encourages its readership to engage actively in national dialogues where the human rights to safe drinking water and sanitation are translated into national and local policies laws and regulations Creating such an enabling environment is in fact only the first step in the process towards progressive realisation Allocation of roles and responsibilities is the next step in an updated institutional and operational set up that helps apply a human rights lens to the process of reviewing and revising the essential functions of operators service providers and regulators

Water and Sanitation Technologies Bradley D. Hanson,1985 Guidance Manual on Water Supply and Sanitation Programmes WELL.,1998 The Department for International Development DFID commissioned this Guidance Manual from the WELL Resource Centre to assist staff and partners to develop effective and sustainable water supply and sanitation programmes It represents collaboration across a range of professions within the Department and from key UK professionals in the sector It details inter disciplinary approaches to planning and implementation of partnership based programmes The Manual comprises three chapters and appendices These take the reader from an overview of the sector through specific development perspectives to detailed recommendations for each stage of the project cycle Chapter 1 is an introduction to water supply and sanitation projects and sets the scene It describes the WS health environmental sustainability economic and financial perspectives institutional perspectives technical aspects and hygiene promotion and sanitation promotion These are explored in some detail so that professional staff in DFID and its partners will gain a better understanding of all the aspects and not just their own speciality Chapter 3 Water supply and sanitation in the DFID programme and project cycle is the how to part of the manual which brings together the disciplinary perspectives at each stage of the project cycle The key issues to be taken into account are set out in a helpful question and recommendation format Appendices include examples of logical frameworks for water supply and sanitation projects
