An utterly fantastical and undeniably queer melding of *Pride and Prejudice* and *Frankenstein* that recasts Mary Bennet as an insatiable scientist one who creates a monster in an attempt to save herself from spinsterdom Awkward plain and overlooked Mary Bennet has long been out of favor not only with her own family but with generations of readers of *Pride and Prejudice* But what was this peculiar girl really doing while her sisters were falling in love As one by one Mary's sisters get married she hatches a plan If the world won't give this fierce lonely girl a place she'll carve one out herself In a desperate bid to avoid becoming a burden on her family or worse married to a controlling man Mary does what any bright intrepid girl would do She takes to the attic and teach herself to reanimate the dead If finding acceptance requires a husband she'll get one even if she has to make him herself However Mary's genius and determination aren't enough to control the malevolent force that she unwittingly unleashes Soon her attempts to rein in the destruction wreaked by her creations leads her to forge a perhaps unlikely friendship with another brilliant young woman unlike any she's ever known As that friendship blossoms into something passionate and all consuming Mary begins to realize that she may have to choose between the acceptance she's always fought for and true happiness **AP Biology Premium, 2026: Prep Book with 6 Practice Tests +**
