### **The Neighbor English Edition:**

The Neighbor Slavoj Žižek, Eric L. Santner, Kenneth Reinhard, 2013-07-12 In Civilization and Its Discontents Freud made abundantly clear what he thought about the biblical injunction first articulated in Leviticus 19 18 and then elaborated in Christian teachings to love one's neighbor as oneself Let us adopt a naive attitude towards it he proposed as though we were hearing it for the first time we shall be unable then to suppress a feeling of surprise and bewilderment After the horrors of World War II the Holocaust and Stalinism Leviticus 19 18 seems even less conceivable but all the more urgent now than Freud imagined In *The Neighbor* three of the most significant intellectuals working in psychoanalysis and critical theory collaborate to show how this problem of neighbor love opens questions that are fundamental to ethical inquiry and that suggest a new theological configuration of political theory Their three extended essays explore today's central historical problem the persistence of the theological in the political In *Toward a Political Theology of the Neighbor* Kenneth Reinhard supplements Carl Schmitt's political theology of the enemy and friend with a political theology of the neighbor based in psychoanalysis In *Miracles Happen* Eric L. Santner extends the book's exploration of neighbor love through a bracing reassessment of Benjamin and Rosenzweig And in an impassioned plea for ethical violence Slavoj Žižek's *Neighbors and Other Monsters* reconsiders the idea of excess to rehabilitate a positive sense of the inhuman and challenge the influence of Levinas on contemporary ethical thought A rich and suggestive account of the interplay between love and hate self and other personal and political *The Neighbor* has proven to be a touchstone across the humanities and a crucial text for understanding the persistence of political theology in secular modernity This new edition contains a new preface by the authors

**The Neighbors Respond** Antony Polonsky, Joanna B. Michlic, 2009-04-11 *Neighbors* Jan Gross's stunning account of the brutal mass murder of the Jews of Jedwabne by their Polish neighbors was met with international critical acclaim and was a finalist for the National Book Award in the United States It has also been from the moment of its publication the occasion of intense controversy and painful reckoning This book captures some of the most important voices in the ensuing debate including those of residents of Jedwabne itself as well as those of journalists intellectuals politicians Catholic clergy and historians both within and well beyond Poland's borders Antony Polonsky and Joanna Michlic introduce the debate focusing particularly on how *Neighbors* rubbed against difficult old and new issues of Polish social memory and national identity The editors then present a variety of Polish voices grappling with the role of the massacre and of Polish Jewish relations in Polish history They include samples of the various strategies used by Polish intellectuals and political elites as they have attempted to deal with their country's dark past to overcome the legacy of the Holocaust and to respond to Gross's book *The Neighbors Respond* makes the debate over *Neighbors* available to an English speaking audience and is an excellent tool for bringing the discussion into the classroom It constitutes an engrossing contribution to modern Jewish history to our understanding of Polish modern history and identity and to our bank of Holocaust memory

**Varieties of Antisemitism** Murray

Baumgarten, Peter Kenez, Bruce Allan Thompson, 2009 The essays in this volume articulate the historical ground on which this artistic exploration of the Holocaust and anti-Semitism depends They also elaborate the spectrum that connects them in terms of their historical location and ideological emphases and thus suggest the ways in which they are connected in terms of rhetorical discourse The essays are governed by the sense that anti-Semitism has not been a unitary experience or event Rather it is its varieties that are explored exactly those aspects that have made it so difficult to grasp and that led to the wide ranging events and murdering methods of the Holocaust Thus the editors eschew the causal explanation of Hitler's Willing Executioners as they seek to provide more nuanced understanding Murray Baumgarten directs the Jewish Studies program at the University of California Santa Cruz Peter Kenez teaches at the University of California Santa Cruz Bruce Thompson is a lecturer in History and Literature at the University of California Santa Cruz

The Ambiguous Figure of the Neighbor in Jewish, Christian, and Islamic Texts and Reception Marianne Bjelland Kartzow, 2021-09-12 This book examines an undertheorized topic in the study of religion and sacred texts the figure of the neighbor By analyzing and comparing this figure in Jewish Christian and Islamic texts and receptions the chapters explore a conceptual shift from Children of Abraham to Ambiguous Neighbors Through a variety of case studies using diverse methods and material chapters explore the neighbor in these neighboring texts and traditions The figure of the neighbor seems like an innocent topic at the surface It is an everyday phenomenon that everyone has knowledge about and experiences with Still analytically it has a rich and innovative potential Recent interdisciplinary research employs this figure to address issues of cultural diversity gender migration ethnic relationships war and peace environmental challenges and urbanization The neighbor represents the borderline between insider and outsider friend and enemy us and them This ambiguous status makes the neighbor

particularly interesting as an entry point into issues of cultural complexity self definition and identity This volume brings all the intersections of religion ethnicity gender and socio cultural diversity into the same neighborhood paying attention to sacred texts receptions and contemporary communities *The Ambiguous Figure of the Neighbor in Jewish Christian and Islamic Texts and Receptions* offers a fascinating study of the intersections between Jewish Christian and Islamic text and will be of interest to anyone working on these traditions *Aversion and Erasure* Carolyn Janice Dean,2010 In *Aversion and Erasure* Carolyn J Dean offers a bold account of how the Holocaust s status as humanity s most terrible example of evil has shaped contemporary discourses about victims in the West Popular and scholarly attention to the Holocaust has led some observers to conclude that a surfeit of Jewish memory is obscuring the suffering of other peoples Dean explores the pervasive idea that suffering and trauma in the United States and Western Europe have become central to identity with victims competing for recognition by displaying their collective wounds She argues that this notion has never been examined systematically even though it now possesses the force of self evidence It developed in nascent form after World War II when the near annihilation of European Jewry began to transform patriotic mourning into a slogan of Never Again as the Holocaust demonstrated all people might become victims because of their ethnicity race gender or sexuality because of who they are The recent concept that suffering is central to identity and that Jewish suffering under Nazism is iconic of modern evil has dominated public discourse since the 1980s Dean argues that we believe that the rational contestation of grievances in democratic societies is being replaced by the proclamation of injury and the desire to be a victim Such dramatic and yet culturally powerful assertions however cast suspicion on victims and define their credibility in new ways that require analysis Dean s latest book summons anyone concerned with human rights to recognize the impact of cultural ideals of deserving and undeserving victims on those who have suffered

***The Anthems of East-Central Europe*** Csaba G. Kiss,2023-04-21 This book juxtaposes national anthems of thirteen countries from central Europe with the aim of initiating a dialogue among the peoples of East Central Europe We tend to perceive a national anthem as a particular mirror involuntarily reflecting an image of nation and homeland but how does it represent the community for whom it sounds To answer this question the book deploys a comparative approach anthems are presented in the light of those of neighbouring countries with the conviction that one of the key features of true Europeanness is good relations between neighbours The development trajectory of the modern nation is the context in which the book examines the history of such national symbols alongside the symbolic content of poetry images of the homeland and nation depicted in the anthems as well as the sometimes longer processes which led to the adoption and legal codification of current state symbols *The Anthems of East Central Europe* will be a great resource for researchers journalists college and university students politicians trying to impact emigrees from this region and emigrees themselves

New York Times Book Review A groundbreaking account of the coming of the French Revolution from a historian of worldwide acclaim. When a Parisian crowd stormed the Bastille in July 1789, it triggered an event of global consequence: the overthrow of the monarchy and the birth of a new society. Most historians account for the French Revolution by viewing it in retrospect as the outcome of underlying conditions such as a faltering economy, social tensions, or the influence of Enlightenment thought. But what did Parisians themselves think they were doing? how did they understand their world? What were the motivations and aspirations that guided their actions? In this dazzling history, Robert Darnton addresses these questions by drawing on decades of close study to conjure a past as vivid as today's news. He explores eighteenth-century Paris as an information society much like our own: its news circuits centered in cafés, on park benches, and under the Palais Royal's Tree of Cracow. Through pamphlets, gossip, underground newsletters, and public performances, the events of some forty years, from disastrous treaties, official corruption, and royal debauchery to thrilling hot air balloon ascents and new understandings of the nation, all entered the churning collective consciousness of ordinary Parisians. As public trust in royal authority eroded and new horizons opened for them, Parisians prepared themselves for revolution. Darnton's authority and sure judgment enable readers to confidently navigate the passions and complexities of controversies over court, politics, Church, doctrine, and the economy. And his compact, luminous prose creates an immersive reading experience. Here is a riveting narrative that succeeds in making the past a living presence.      **Approaches to Kurban Said's Ali and Nino** Carl Niekerk, Cori Crane, 2017 Essays showcasing the novel *Ali and Nino* as particularly topical for today's readers, both in and out of the classroom, and providing a number of diverse approaches to it.      **The Southern literary messenger**, 1844      **Lacan + Architecture** John Shannon Hendrix, Francesco Proto, 2024-11-14 This book seeks to revise and revive architectural theory through psychoanalysis, as well as to apply psychoanalytic theory to architecture. Its authors argue for Lacan's central importance for a comprehensive theory of building and suggest how architectural theory might offer new resources for psychoanalytic theorists. They address both the perceived crisis in the contemporary state of architecture and architectural theory and crises in society at large, including political and economic fracture and instability and threats to mental health and well-being. It offers fresh insights to architects, architectural educators, and practitioners.
