Ball of Collusion Andrew C. McCarthy,2019-08-13 The real collusion in the 2016 election was not between the Trump campaign and the Kremlin It was between the Clinton campaign and the Obama administration The media Democrat collusion narrative which paints Donald Trump as cat s paw of Russia is a studiously crafted illusion Despite Clinton s commanding lead in the polls hyper partisan intelligence officials decided they needed an insurance policy against a Trump presidency Thus was born the collusion narrative built on an anonymously sourced dossier secretly underwritten by the Clinton campaign and compiled by a former British spy Though acknowledged to be salacious and unverified at the FBI s highest level the dossier was used to build a counterintelligence investigation against Trump s campaign Miraculously Trump won anyway But his political opponents refused to accept the voters decision Their collusion narrative was now peddled relentlessly by political operatives intelligence agents Justice Department officials and media ideologues the vanguard of the Trump Resistance Through secret surveillance high level intelligence leaking and tireless news coverage the public was led

to believe that Trump conspired with Russia to steal the election Not one to sit passively through an onslaught President Trump fought back in his tumultuous way Matters came to a head when he fired his FBI director who had given explosive House testimony suggesting the president was a criminal suspect despite privately assuring Trump otherwise The resulting firestorm of partisan protest cowed the Justice Department to appoint a special counsel whose seemingly limitless investigation bedeviled the administration for two years Yet as months passed concrete evidence of collusion failed to materialize Was the collusion narrative an elaborate fraud And if so choreographed by whom Against media Democrat caterwauling a doughty group of lawmakers forced a shift in the spotlight from Trump to his investigators and accusers This has exposed the depth of politicization within American law enforcement and intelligence agencies It is now clear that the institutions on which our nation depends for objective policing and clear eyed analysis injected themselves scandalously into the divisive politics of the 2016 election They failed to forge a new Clinton administration Will they succeed in bringing down President Trump   **Protecting America From The Threat Of ISIS, Senate Hrg. 114-690, May 26, 2016, 114-2** ,2017

impacted negatively upon traditional legal frameworks However preventive law and policy in other contexts such as environmental protection mental health immigration and corruption has not received sustained focus This book extends that body of scholarship through use of case studies from these diverse regulatory settings in order to examine and critique the principles policies and paradoxes of preventive justice Whereas earlier scholars looked upon preventive justice as a source and means of regulation the powerfully argued contributions to this volume provide forceful reasons to consider whether we would do better talk about regulating preventive justice Professor Lucia Zedner Oxford University

*Innocent Until Proven Muslim* Maha Hilal,2022-01-25 On September 11 2001 nineteen terrorists hijacked four airplanes and carried out attacks on the United States killing more than three thousand Americans and sending the country reeling Three days

after the attacks President George W Bush declared This is a day when all Americans from every walk of life unite in our resolve for justice and peace Yet in the days following Bush declared a War on Terror which would result in years of Muslims being targeted on the basis of collective punishment and scapegoating In 2009 President Barack Obama said America must play its role in ushering in a new era of peace Instead Obama perpetuated the War on Terror's infrastructure that Bush had put in place rendering his words entirely empty President Donald Trump's overtly Islamophobic rhetoric added fuel to the fire stoking public fears to justify the continuation of the War his predecessors had committed to In Innocent Until Proven Muslim scholar and organizer Dr Maha Hilal tells the powerful story of two decades of the War on Terror exploring how the official narrative has justified the creation of a sprawling apparatus of state violence rooted in Islamophobia and excused its worst abuses Hilal offers not only an overview of the many iterations of the War on Terror in law and policy but also examines how Muslim Americans have internalized oppression how some influential Muslim Americans have perpetuated collective responsibility and how the lived experiences of Muslim Americans reflect what it means to live as part of a suspect community Along the way this marginalized community gives voice to lessons that we can all learn from their experiences and to what it would take to create a better future Twenty years after the tragic events of 9 11 we must look at its full legacy in order to move toward a United States that is truly inclusive and unified
