The Other America Guided Reading:

Educating the Other America Susan B. Neuman, 2008 Breaking the cycle of poverty by improving education and literacy that is the ultimate goal of *Educating the Other America*. This trailblazing book from top experts brings together 30 of the biggest names in education to tackle the toughest challenges faced by the nearly 1 in 5 children who live below the poverty line and offer fresh cutting edge ideas for closing the achievement gap. Readers will start with an in depth research based understanding of children who fail to read not because of cognitive impairment but because of the complex effects of poverty. They will explore the dramatic impact of poverty on children's literacy, school achievement, social success, physical health and future economic well being. Then readers will discover the practical benefits of the latest research and innovations in teaching and classroom design, creating rich multisensory classrooms that support students' health and learning, applying Universal Design to engage all students and accommodate a wide range of learner needs, using key research findings to shape instruction that helps promote higher achievement for English language learners, exposing students to multimedia stories that incorporate motion, sound and music to improve text understanding and vocabulary, using results of the most recent studies to teach African American students effectively, making the most of educational software to help improve children's reading outcomes, turning shared book reading into a great accelerator of vocabulary development, comprehension and other literacy skills. Education professionals will also learn from the latest statistics and research projects on poverty, literacy and achievement, explore the successes and limitations of current education reform efforts and discover what work still needs to be done to create significant and lasting improvements. Representing the most creative new thinking from the best minds in education, this groundbreaking resource illuminates the challenges of poverty and gives professionals the knowledge they need to help students succeed both in school and for the rest of their lives. *Perspectives on the 'Other America'* Michael Niblett, Kerstin Oloff, 2009. Uniting critical writing on novels, poetry, painting and ritual, this volume takes a regional approach to the cultures of the Caribbean Basin. Ranging across the linguistic spectrum of the area, it examines cultural production from the Anglophone, Francophone and Hispanophone islands, Suriname and the Guyanas and Latin and Central America. The interdisciplinary nature of the collection and the challenge it poses to the balkanization of the region within academic discourse will make it of especial interest to students and scholars of the Caribbean. Inspired by the category of the Other America as developed by Édouard Glissant, the book offers a series of original and stimulating engagements with topics that include nationalism, migration and exile, landscape and the environment, gender and sexuality and Postcolonial Studies and world literature. In addition to contributions by leading scholars such as Peter Hulme, Theo Dhaen and Elizabeth Paravisini Gebert, it contains interviews with two renowned novelists from the region, Lawrence Scott and Mayra Santos Febres. Underpinning the collection is an interrogation of received ideas of the nation-state and a suggestion that regionalism might provide a better optic through which to view the circum-Caribbean, that national consciousness in other words must

always also be a regional consciousness
