Baxter's Practical Works, Volume 1 ,2007-12 The editor s preface 1707 p xiii stated that the works of Richard Baxter are perhaps the best body of practical divinity that is extant in our own or any other tongue Richard Baxter lived from 1615 1691 The DIRECTORY was completed in 1665 Its scope was intended to cover all of practical theology a summa of casuistry Timothy Keller calls it the greatest manual on Biblical counseling ever produced The Works of John Locke, in Nine Volumes... Volume the First (-ninth) John Locke,1824 Systematic Theology: Volume II - The Doctrine of Man Augustus Hopkins Strong,2017-04-09 This volume starts off by ending the last part of the first volume and then going into the human doctrine that is taught in the Bible Such topics such as the nature of humanity the nature of sin and what makes up the image of God within us is the bulk of the topics that are covered within this work Finishing off is some talk on the doctrine of the work and office of Christ and the topic of salvation and how that works out theologically The Works of the Rev. Isaac Watts D.D. in Nine Volumes Isaac Watts,1812 **The Life of Luther (Vol. 1-6)** Hartmann Grisar,2022-12-10 Luther is a six volume biography of Martin Luther German professor of theology and the Church reformer famous for his Ninety five Theses of 1517 and recognized as a seminal figure in the Protestant Reformation The aim of the work was to present accurate historical and psychological portrait of Luther s personality which is still a mystery from many points of view While presenting Luther s psychological picture the author chooses to do so in Luther s own words analyzing his writings and letters Analyzing Luther s writings he opts not to write about Luther s teachings and the history of dogma but reaches deeper in his endeavor to supply an exact portrayal of Luther as a whole which should emphasize various aspects of his mind and character **Nicene and Post-Nicene Fathers: First Series, Volume V St. Augustine: Anti-Pelagian Writings** Philip Schaff,2007-05-01 The Council of Nicaea in 325 AD marked the beginning of a new era in Christianity For the first time doctrines were organized into a single creed The Nicene and Post Nicene Fathers did most of their writing during and after this important event in Church history Unlike the previous era of Christian writing the Nicene and Post Nicene era is dominated by a few very important and prolific writers In Volume V of the 14 volume collected writings of the Nicenes and Post Nicenes first published between 1886 and 1889 readers will discover Saint Augustines rebuke of Pelagianism This doctrine undermined Augustines beliefs because it claimed that original sin did not exist Since there was no original sin humans were saved or lost based solely on their own will This further meant that Jesus while a great teacher and model human being did not die to save humanity negating a large portion of Christian doctrine Augustine believed that salvation was available only by the grace of God working in conjunction with mans decision to live a good life Spiritual seekers and students of history will find this work a thorough defense of Catholic theology *LUTHER (Vol. 1-6)* Hartmann Grisar,2020-07-15 Luther is a six volume biography of Martin Luther German professor of theology and the Church reformer famous for his Ninety five Theses of 1517 and recognized as a seminal figure in the Protestant Reformation The aim of the

work was to present accurate historical and psychological portrait of Luther's personality which is still a mystery from many points of view. While presenting Luther's psychological picture, the author chooses to do so in Luther's own words, analyzing his writings and letters. Analyzing Luther's writings, he opts not to write about Luther's teachings and the history of dogma but reaches deeper in his endeavor to supply an exact portrayal of Luther as a whole, which should emphasize various aspects of his mind and character. *Kierkegaard's Journals and Notebooks, Volume 8* Søren Kierkegaard, 2015-08-18.

For over a century, the Danish thinker Søren Kierkegaard (1813-55) has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought, psychology, and contemporary aesthetics, especially literary theory. Despite his relatively short life, Kierkegaard was an extraordinarily prolific writer, as attested to by the 26-volume Princeton University Press edition of all of his published writings. But Kierkegaard left behind nearly as much unpublished writing, most of which consists of what are called his journals and notebooks. Kierkegaard has long been recognized as one of history's great journal keepers, but only rather small portions of his journals and notebooks are what we usually understand by the term diaries. By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects: philosophical, religious, political, personal. Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought. We can witness the genesis of his published works, to be sure, but we can also see whole galaxies of concepts, new insights, and fragments, large and small, of partially or almost entirely completed but unpublished works. Kierkegaard's *Journals and Notebooks* enables us to see the thinker in dialogue with his times and with himself. Kierkegaard wrote his journals in a two-column format: one for his initial entries and the second for the extensive marginal comments that he added later. This edition of the journals reproduces this format, includes several photographs of original manuscript pages, and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced. Volume 8 of this 11-volume series includes five of Kierkegaard's important NB journals, Journals NB21 through NB25, which cover the period from September 1850 to June 1852 and which show Kierkegaard alternately in polemical and reflective postures. The polemics emerge principally in Kierkegaard's opposition to the increasing infiltration of Christianity by worldly concerns, a development that in his view had accelerated significantly in the aftermath of the political and social changes wrought by the Revolution of 1848. Kierkegaard understood the corrupting of Christianity to be in the interest of the powers that be, and he directed his criticism at politicians, the press, and especially the Danish Church itself, particularly church officials who claimed to be reformers. On the reflective side, Kierkegaard delves into a number of authors and religious figures, some of them for the first time, including Montaigne, Pascal, Seneca, Savonarola, Wesley, and F. W. Newman. These journals also contain Kierkegaard's thoughts on the decisions surrounding the publication of the *Anti-Climacus* writings, *The Sickness unto Death*, and especially *Practice in Christianity*. Kierkegaard's reader gets the sense both of a gathering storm by the close of the last journal in this volume, the

famous attack on Christendom is less than three years away and a certain hesitancy What needs reforming Kierkegaard insists is not the doctrine or the Church but existences i e lives *The Congregationalist* ,1915 *An Exposition of the Old and New Testament.
