Kaufman and Hollywood's Merry Band of Pranksters, Fabulists and Dreamers Derek Hill, 2008-09-01 Since the late 1990s a subtle subversive element has been at work within the staid confines of the Hollywood dream factory Young filmmakers like Spike Jonze Wes Anderson Michel Gondry David O Russell Richard Linklater and Sofia Coppola rode in on the coattails of the independent film movement that blossomed in the early 1990s and have managed to wage an aesthetic campaign against cowardice of the imagination much like their artistic forebears the so called Movie Brats Coppola Scorsese De Palma Altman and Ashby among others did in the 1970s But their true pedigree can be traced back to the cinematic

Thinking with Tolstoy and Wittgenstein Henry W. Pickford,2015-11-30 In this highly original interdisciplinary study incorporating close readings of literary texts and philosophical argumentation Henry W Pickford develops a theory of meaning and expression in art intended to counter the meaning skepticism most commonly associated with the theories of Jacques Derrida Pickford arrives at his theory by drawing on the writings of Wittgenstein to develop and modify the insights of Tolstoy s philosophy of art Pickford shows how Tolstoy s encounter with Schopenhauer s thought on the one hand provided support for his ethical views but on the other hand presented a problem exemplified in the case of music for his aesthetic theory a problem that Tolstoy did not successfully resolve Wittgenstein s critical appreciation of Tolstoy s thinking however not only recovers its viability but also constructs a formidable position within contemporary debates concerning theories of emotion ethics and aesthetic expression

REPRODUCTION FROM THE STANDPOINT OF BIOLOGY I GENERAL ACTIVITIES OF LIVING ORGANISMS The casual observer even if he watches thoughtfully the various activities of plants and animals would hardly believe these activities capable of classification into two general classes He notes the germination of the plant seed and its early growth step by step approaching a stage of maturity it blossoms produces seed and if it is an annual plant withers and dies If it is a perennial plant its leaves only wither and die at the approach of winter the plant passing into a resting stage from which it awakes the following spring to repeat again its annual cycle If he observes an animal he finds that it similarly develops to a stage of maturity reproduces its kind withers and dies but incident to these general activities he notes numerous others that seem to have no relation to the activity of the plant He sees men tilling the fields felling the forests building houses factories and railroads he sees them build hospitals colleges and churches Is it possible to group all of these activities of plants and animals into two general groups A more critical view of these activities makes it evident that they are all directed either to the maintenance and protection of the individual or the maintenance and protection of the race Those directed towards the maintenance of self are called egoistic activities while those directed to the maintenance of the race are called phyletic activities **Annual Report** Chicago.
