Ekhatior,Newman U. Richards,Chisa Onyejekwe,2025-06-26 This book investigates the relationship between human rights and taxation exploring how human rights have been impeded or enhanced through tax laws and policies and what this means for sustainable development in the Global South Drawing on cases from across the Global South the book demonstrates the benefits of embedding human rights into tax policies and legislation The authors not only highlight the role of legislative measures and other human rights regulations in the realisation of international treaty rights but also argue that it creates an environment whereby individuals feel duty bound to pay taxes when necessary thereby securing a sustainable revenue source for the state to meet their socio economic responsibilities The book investigates key topics such as compliance redistribution e commerce tax havens and the role of key stakeholders This book will be useful for researchers from across the fields of law human rights taxation and sustainable development *Religion and Contemporary Politics* Timothy J. Demy,Jeffrey M. Shaw Ph.D.,2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography **Achieving the**

**Sustainable Development Goals** Simon Dalby, Susan Horton, Rianne Mahon, Diana Thomaz, 2019-04-11 This book draws on the expertise of faculty and colleagues at the Balsillie School of International Affairs to both locate the Sustainable Development Goals (SDGs) as a contribution to the development of global government and to examine the political, institutional, and financial challenges posed by the SDGs. The contributors are experts in global governance issues in a broad variety of fields ranging from health, food systems, social policy, migration, and climate change. An introductory chapter sets out the broad context of the governance challenges involved and how individual chapters contribute to the analysis. The book begins by focusing on individual SDGs, examining briefly the background to the particular goal and evaluating the opportunities and challenges, particularly governance challenges, in achieving the goal as well as discussing how this goal relates to other SDGs. The book goes on to address the broader issues of achieving the set of goals overall, examining the novel financing mechanisms required for an enterprise of this nature, the trade-offs involved, particularly between the urgent climate agenda and the social/economic goals, the institutional arrangements designed to enable the achievement of the goals, and offering a critical perspective on the enterprise as a whole. Achieving the Sustainable Development Goals makes a distinctive contribution by covering a broad range of individual goals with contributions from experts on governance in the global climate, social, and economic areas, as well as providing assessments of the overall project, its financial feasibility, institutional requisites, and its failures to tackle certain problems at the core. This book will be of great interest to scholars and students of international affairs, development studies, and sustainable development, as well as those engaged in policymaking nationally, internationally, and those working in NGOs.

*Structural Injustice* Madison Powers, Ruth Faden, 2019-08-30 Structural Injustice advances a theory of what structural injustice is and how it works. Powers and Faden present both a philosophically powerful, integrated theory about human rights violations and structural unfairness alongside practical insights into how to improve them.
