**Stanford**, 2007 **Minorities in Science** Vijaya L. Melnick, 2013-04-17 Change is the essence of progress We now stand at the crossroads of our civilization where change is essential in the conduct of our institutions in the plans and models we project for the future and in the very patterns of our thinking if we are to survive as one nation under God with liberty and justice for all Opportunity to participate and fulfill the responsibility of building the nation must be available to all citizens in a true republic For the viability of governmental institutions in a modern democratic nation state rests on the diversity of the genius of her citizens and this enables the nation to accommodate herself better to changes of the times But if the nation becomes impervious to change and resistant to modify its institutions to keep in pace with the times then the nation will indeed be doomed to wither and perish History is replete with examples of civilizations that have gone that course It is therefore our responsibility to insure that our government institutions are kept receptive to change and reflective of the needs and concerns of her citizenry In America today economic and social powers generally go to those who can claim a superior education and professional experience As our society and indeed the world becomes increasingly dependent on science and technology education in those fields becomes imperative to the power equation Choices Under Fire Michael Bess, 2008-03-11 World War II was the quintessential good war It was not however a conflict free of moral ambiguity painful dilemmas and unavoidable compromises Was the bombing of civilian populations in Germany and Japan justified Were the Nuremberg and Tokyo war crimes trials legally scrupulous What is the legacy bequeathed to the world by Hiroshima With wisdom and clarity Michael Bess brings a fresh eye to these difficult questions and others arguing eloquently against the binaries of honor and dishonor pride and shame and points instead toward a nuanced reckoning with one of the most pivotal

conflicts in human history      Facts & Furious Ben Shapiro,2024-07-10 The facts speak for themselves Under Democratic control America has devolved into a battleground for culture wars corruption and criminal insanity For the left conservatism is more of a threat to America than terrorism Silencing a former president is more important than reinforcing our borders Religion is dangerous but drag queen story hour is A OK After ushering countless attacks on American morality the left then points the finger at hardworking Americans who try to pick up the pieces Where s the equity and inclusion among all this diversity In this collection of columns Ben Shapiro runs the gamut on the political dumpster fire that has been burning since Joe Biden became president An ultimate guide of the most important moments in American politics since 2022 Shapiro s incisive commentary cuts through the mud being slung by either political party The 2024 presidential election will mark a turning point for America We will either choose the right way forward or we will turn left down a dark path of destruction      Sayyid Ahmad Khan K. A. NIZAMI,2017-08-30 The book deals with the life and achievements of Sir Syed Ahmad Khan especially his pioneering work in the field of education Sir Syed Ahmad Khan was the founder of Aligarh Muslim University This was first written by the famous historian Professor K A Nizami in English and later was translated into Urdu under the guidance of the author by his disciple Asgha Abbas      Why Humans Fight Siniša Malešević,2022-10-06 Male evi offers a novel sociological answer to the age old question Why do humans fight Instead of focusing on the motivations of solitary individuals he emphasises the centrality of the social and historical contexts that make fighting possible He argues that fighting is not an individual attribute but a social phenomenon shaped by one s relationships with other people Drawing on recent scholarship across a variety of academic disciplines as well as his own interviews with the former combatants Male evi shows that one s willingness to fight is a contextual phenomenon shaped by specific ideological and organisational logic This book explores the role biology psychology economics ideology and coercion play in one s experience of fighting emphasising the cultural and historical variability of combativeness By drawing from numerous historical and contemporary examples from all over the world Male evi demonstrates how social pugnacity is a relational and contextual phenomenon that possesses autonomous features      *A Recollection of such Treatises as have bene heretofore severally published and are now revised, corrected, augmented. Michaels,2019-06-19 This volume explores the response of liberals to rightwing attacks during the Red Scare of the late 1940s and early 1950s establishing it as a defensive approach aimed at warding off efforts to conflate liberalism with communism but not at striking back at the opposing ideology of conservatism itself This book finds the combination of the liberal adherence to pragmatism and political pluralism to have been responsible for the weakness of this response Analyzing the language used in interchanges between rightwing anticommunists and liberals Michaels shows that those interchanges did not constitute an effort to persuade but rather an effort to discredit the opponent as un American A variety of conflicts a professor seeking to avoid dismissal by accusing his colleagues of disloyalty an investigator of rightwing groups assailed for his activities an openly communist student seeking to justify the existence of his student organization embody a battle waged over conflicting versions of America an attempt by each side to lay exclusive claim to that word Conflicts over freedom individualism Americanism and the institution of private property demonstrate how rightwing anticommunists and moderate liberals actually subscribed to two mutually incompatible patterns of sociation making the conflict profound and resistant to reconciliation
