**Conservation Areas** Jens Andersson, Michel de Garine-Wichatitsky, David Cumming, Vupenyu Dzingirai, Ken Giller, 2017-07-14

The introduction of transfrontier conservation areas TFCAs in southern Africa was based on an enchanting promise simultaneously contributing to global biodiversity conservation initiatives regional peace and integration and the sustainable socio economic development of rural communities Cross border collaboration and eco tourism became seen as the vehicles of this promise which would enhance regional peace and stability along the way However as these highly political projects take shape conservation and development policymaking progressively shifts from the national to regional and global arenas and the peoples most affected by TFCA formation tend to disappear from view This book focuses on the forgotten people displaced by or living on the edge of protected wildlife areas It moves beyond the grand enchanting promise of conservation and development across frontiers and unfounded notions of TFCAs as integrated social ecological systems Peoples dependency on natural resources the specific combination of crop cultivation livestock keeping and natural resource harvesting activities varies enormously along the conservation frontier as does their reliance on resources on the other side of the conservation boundary Hence the studies in this book move from the dream of eco tourism fuelled development supporting nature conservation and people towards the local realities facing marginalized people living adjacent to protected areas in environments often poorly suited to agriculture **Termites of the Gods** Siyakha Mguni, 2015-03-01 Siyakha

Mguni s personal journey over many years to discover the significance of a hitherto enigmatic theme in San rock paintings known as formlings In *Termites of the Gods* Siyakha Mguni narrates his personal journey over many years to discover the significance of a hitherto enigmatic theme in San rock paintings known as formlings Formlings are a painting category found across the southern African region including South Africa Namibia and Zimbabwe with its densest concentration in the Matopo Hills Zimbabwe Generations of archaeologists and anthropologists have wrestled with the meaning of this painting theme in San cosmology without reaching consensus or a plausible explanation Drawing on San ethnography published over the past 150 years Mguni argues that formlings are in fact representations of flying termites and their underground nests and are associated with botanical subjects and a range of larger animals considered by the San to have great power and spiritual significance This book fills a gap in rock art studies around the interpretation and meaning of formlings It offers an innovative methodological approach for understanding subject matter in San rock art that is not easily recognisable and will

be an invaluable reference book to students and scholars in rock art studies and archaeology      **Africa, the Cradle of Human Diversity** ,2021-11-22 This book explores important chapters of past and recent African history from a multidisciplinary perspective It covers an extensive time range from the evolution of early humans to the complex cultural and genetic diversity of modern day populations in Africa Through a comprehensive list of chapters the book focuses on different time periods geographic regions and cultural and biological aspects of human diversity across the continent Each chapter summarises current knowledge with perspectives from a varied set of international researchers from diverse areas of expertise The book provides a valuable resource for scholars interested in evolutionary history and human diversity in Africa Contributors are Shaun Aron Ananyo Choudhury Bernard Clist Cesar Fortes Lima Rosa Fregel Jackson S Kimambo Faye Lander Marlize Lombard Fidelis T Masao Ezekia Mtetwa Gilbert Pwiti Mich le Ramsay Thembi Russell Carina Schlebusch Dhriti Sengupta Plan Shenjere Nyabezi M rio Vicente
