Johnson,2018-10-10 Attitudes are evaluations of people places things and ideas They help us to navigate through a complex world They provide guidance for decisions about which products to buy how to travel to work or where to go on vacation They color our perceptions of others Carefully crafted interventions can change attitudes and behavior Yet attitudes beliefs and behavior are often formed and changed in casual social exchanges The mere perception that other people favor something say rich people may be sufficient to make another person favor it People s own actions also influence their attitudes such that they adjust to be more supportive of the actions People s belief systems even change to align with and support their preferences which at its extreme is a form of denial for which people lack awareness These two volumes provide authoritative critical surveys of theory and research about attitudes beliefs persuasion and behavior from key authors in these areas The first volume covers theoretical notions about attitudes the beliefs and behaviors

to which they are linked and the degree to which they are held outside of awareness It also discusses motivational and cultural determinants of attitudes influences of attitudes on behavior and communication and persuasion The second volume covers applications to measurement behavior prediction and interventions in the areas of cancer HIV substance use diet and exercise as well as in politics intergroup relations aggression migrations advertising accounting education and the environment     **Whitaker's Books in Print** ,1998     **Library & Information Science Abstracts** ,2008     **Rural Extension, Education and Training Abstracts** ,1989     **Bulletin of the Atomic Scientists** ,1985-09     **Tropentag 2021 - International Research on Food Security, Natural Resource Management and Rural Development** Eric Tielkes,2022-02-01 Tropentag is the largest interdisciplinary conference in Europe on developmentoriented research in the fields of tropical and subtropical agriculture food security natural resource management and rural development Normally the Tropentag takes place annually However for reasons that by now have become obvious the past two years have been particularly challenging We are therefore delighted that the University of Hohenheim managed to host a hybrid version of the conference from 15 to 17 September 2021 Being a hybrid conference it was pleasing to note that people did not only gather in one of the lecture theatres at the University of Hohenheim but also in one of the state of the art seminar rooms at the Czech University of Life Sciences in Prague The rest of course attended via Zoom meetings being streamed on YouTube channels using the Whova online platform     *Resources in Education* ,1996
