Mosalagae,2023-04-25 This book provides a novel in depth study of the early pandemic response policy at the intersection of political economy and law It explores 1 whether the responses to COVID 19 were democratically accountable 2 the ways in which new surveillance and enforcement techniques were adopted 3 the new monetary and fiscal policies which were implemented 4 the ways in which employed and unemployed persons were differently impacted by the new policies and 5 how companies were economically sustained through the pandemic A compelling look at what happens to societies when disaster strikes this book will be of interest to legal scholars political scientists and economists **Transforming the Rural Nonfarm Economy** Steven Haggblade,Peter B. R. Hazell,Thomas Reardon,2007-11-16 Contrary to conventional wisdom that equates rural economies with agriculture rural residents in developing countries often rely heavily on activities other than farming for their income Indeed nonfarm work accounts for between one third and one half of rural incomes in the developing world In recent years accelerating globalization increasing competition from large businesses expanding urban markets for rural goods and services and greater availability of information and communication technology have combined to expose rural nonfarm businesses to new opportunities as well as new risks By examining these rapid changes in the rural nonfarm economy international experts explore how the rural nonfarm economy can contribute to overall economic growth in developing countries and how the poor

can participate in this rapidly evolving segment of the economy The authors review an array of recent studies of the rural nonfarm economy in order to summarize existing empirical evidence explore policy implications and identify future research priorities They examine the varied scale structure and composition of the rural nonfarm economy as well as its relationship with agricultural and urban enterprises And they address key questions about the role of public intervention in the rural nonfarm economy and how the rural poor can participate in and navigate the rapid transition underway in rural areas The contributors offer new insights to specialists in rural development and to others interested in overall economic development

*Adapting to Climate Uncertainty in African Agriculture* Stephen Whitfield, 2015-08-20 Future climatic and agro ecological changes in Africa are uncertain and associated with high degrees of spatial and temporal variability and this change is differently simulated within divergent climate crop models and in controlled crop breeding stations Furthermore uncertainty emerges in local contexts not just in response to climatic systems but to social economic and political systems and often with implications for the appropriateness and adoption of technologies or the success of alternative cropping systems This book examines the challenges of adaptation in smallholder farming in Africa analysing the social economic political and climatic uncertainties that impact on agriculture in the region and the range of solutions proposed Drawing on case studies of genetically modified crops conservation agriculture and other climate smart solutions in eastern and southern Africa the book identifies how uncertainties are framed from above as well experienced from below by farmers themselves It provides a compelling insight into why ideas about adaptation emerge from whom and with what implications This book offers a unique perspective and will be highly relevant to students of climate change adaptation food security and poverty alleviation as well as policy makers and field practitioners in international development and agronomy Handbook of Research on
