The book has evolved from the authors own research in the Kalahari and attempts to provide explanations and answers to some of the many questions raised about this region ranging from the commonly asked 'is it really a desert?' to more specific and detailed concerns. The interdisciplinary approach will make the book of interest to researchers, lecturers and advanced students in earth sciences, environmental studies, tropical geomorphology and Quaternary science. State of Food Insecurity in Harare, Zimbabwe Tawodzera, Godfrey, Zanamwe, Lazarus, 2016-10-17 Harare is at the epicentre of the economic meltdown and political crisis that has devastated Zimbabwe over the last decade and led to a mass exodus from the country Those who remained in Zimbabwe's largest city and capital endured unprecedented hardship as the formal economy collapsed unemployment soared and poverty deepened Household surveys conducted in Harare with official sanction between 2003 and 2009 appear to demonstrate that food insecurity was not a particularly serious problem a conclusion sharply at odds with reality In 2008 at the height of the crisis AFSUN therefore implemented its own baseline food security survey in Harare using a well tested and reliable methodology This paper presents and discusses the results of that survey and shows that Harare had become the most food insecure city in the SADC region by 2008 Levels of food insecurity were extraordinarily high as poor households struggled to find the income to purchase what little food was available in the shops and informal markets The paper demonstrates that participation in the informal food economy was the major response to the crisis providing poor households with a modicum of food and income Urban agriculture for home consumption also grew in importance as a crisis response While the political and economic situation in Zimbabwe has stabilised somewhat since 2008 the long term impact of many years of enforced food insecurity on the city population is incalculable This paper concludes with the recommendation that ongoing monitoring of the urban food security situation in Harare is essential in order to begin to develop national and municipal policies that could ensure a food secure future for the city

Seeds for African Peasants Esbern Friis-Hansen, 1995 *Livelihoods of Ethnic Minorities in Rural Zimbabwe* Kirk Helliker, Patience Chadambuka, Joshua Matanzima, 2022-04-21 The book provides empirically rich case studies of the lives and livelihoods of marginalised ethnic minorities in colonial and post colonial Zimbabwe with a specific focus on diverse rural areas It demonstrates the dynamic and complex relationships existing between ethnic minorities and livelihoods and analyses the ways in which projects of belonging and identity formation amongst these ethnic minorities are entangled in their respective livelihood construction projects and vice versa The ethnic minorities include those considered indigenous to Zimbabwe and those often defined as aliens including ethnicities with a transnational presence in southern Africa The ethnicities studied in the book include the following Chewa Doma Tonga Tshwa San Shangane Basotho Ndaue Hlengwe and Nambya By studying their livelihoods in particular this book offers the first full manuscript about ethnic minorities in Zimbabwe In doing so it highlights the significance of these ethnic minorities to Zimbabwean history politics and society
