Henry Cavendish hydrogen nitrogen fertilizers and explosives dynamite laughing gas IPC consists of twelve chapters of text  
and twelve companion student activity books This course introduces students to the people places and principles of physics  
and chemistry It is written by internationally respected scientist author John Hudson Tiner who applies the vignette approach  
which effectively draws readers into the text and holds attention The author and editors have deliberately avoided complex  
mathematical equations in order to entice students into high school level science Focus is on the people who contributed to  
development of the Periodic Table of the Elements Students learn to read and apply the Table while gaining insight into basic  
chemistry and physics This is one of our most popular courses among high school students especially those who have a  
history of under performance in science courses due to poor mathematical and reading comprehension skills The course is  
designed for two high school transcript credits Teachers may require students to complete all twelve chapters for two  
transcript credits or may select only six chapters to be completed for one transcript credit for Physical Science Physics or  
Chemistry Compliance with state and local academic essential elements should be considered when specific chapters are  
selected by teachers As applicable to local policies transcript credit may be assigned as follows when students complete all  
12 chapters Physical Science for one credit and Chemistry for one credit or Integrated Physics and Chemistry for two credits
