among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today's world. While lack of resources and other challenges hinder effectiveness, opportunity lies in promising pathways of policy and practice. In Zimbabwe, there is a varying degree of success in the implemented competence-based curriculum which emphasises inquiry-based learning and STEM education. Finally, there is a need for early exposure to STEM-based career opportunities and for more collaboration between the government, private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe. This book uses Zimbabwe as an example to explore STEM education in poverty. By examining the successes and challenges of STEM education in Zimbabwe, this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies. This book is an essential resource for anyone interested in improving STEM education in underserved communities.

Teaching African History in Schools, 2020-11-04. Emerging from the pioneering work of the African Association for History Education (AAHE), *Teaching African History in Schools* offers an original Africa-centred contribution to international history education research. Edited by AAHE Africa's founders and directors, the volume thus addresses a notable gap in this field by showcasing otherwise marginalised scholarship from and about Africa. *Teaching African History in Schools* constitutes a unique collection of nine empirical studies interrogating curriculum and textbook contents and teachers and learners' voices and experiences as they relate to teaching and learning African history across the continent and beyond. Case studies include South Africa, Kenya, Rwanda, Zimbabwe, Malawi, Cameroon and Tanzania, as well as the UK and Canada. Contributors are Denise Bentrovato, Carol Bertram, Jean Leonard Buhigiro, Annie Fatsereni Chiponda, Raymond Nkweni, Fru Marshall, Tamuka Maposa, Abdul Mohamud, Sabrina Moisan, Renville Nussey, Nancy Rushohora, Johan Wassermann and Robin Whitburn.

Handbook of Research on Promoting Global Citizenship Education Keengwe, Jared, 2022-02-18. A global citizen is an individual who believes in a public responsibility for their local community to grow and interconnect amongst the world's diverse people and things. Global citizenship education is a fast-moving process that continues to intertwine communities all over the world. As we move toward a more global world, the improvement in education, health, poverty rates and standard of living should come with it. This global world must be a place where people are aware of what is going on and can have an impact as well. The *Handbook of Research on Promoting Global Citizenship Education* explores various ways to empower educators to design and implement a curriculum that incorporates global citizen education. Covering a range of topics such as global issues and

academic migration this major reference work is ideal for academicians industry professionals policymakers researchers scholars instructors and students Regime and Education in Zimbabwe Bekithemba Dube,Albert Mufanechiya,2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy **Mathematics Teacher**
