Thai Massage Dissected Natasha de Grunwald, 2021-05-27 Written by the UK s leading teacher and practitioner Natasha de Grunwald a pioneer of Thai massage and bodywork for 30 years Thai Massage Dissected is a book aimed at massage therapists yoga teachers physiotherapists osteopaths and all manual therapists who want to expand their therapeutic approach and are curious to learn about the body from a Thai anatomy and dissection perspective Therapeutic Thai massage and bodywork is a rich and diverse modality so much more than the stretching and deep tissue work for which it is known The book provides a richly curated combination of tools techniques and protocols that will enhance all practitioners skill sets Natasha discusses the roots of this modality as Buddhist medicine the five element system the use of therapeutic herbs and Thai anatomy whilst also writing about concepts such as proprioception and interoception There is an additional chapter looking at traditional healthcare practices for women informed by her time spent with village midwives on the Thai Burmese border Natasha de Grunwald uses imagery from many hours spent in a cadaver lab to describe anatomical textural layers and structures

bringing human form to life She consolidates this with a therapeutic perspective on Thai medical theory and how Thai massage and bodywork can be carried out in a clinical setting This comes from her extensive research studies and knowledge spanning over three decades

Singing and Communicating in English Kathryn LaBouff, 2007-12-21 From the Foreword by Renee Fleming Kathryn LaBouff has developed an approach to singing in the English language which is wonderfully user friendly and which has surely saved much wear and tear on my voice It is a technique that has empowered me with the knowledge and skills to bring a text to life and to be able to negotiate all of the sounds of the language with the least amount of effort I have found her clever and extremely creative use of substitute consonants or combinations of consonants in creating clear diction utterly delightful because they are surprising and because they work These techniques have been equally useful when singing in foreign languages We sopranos are not usually known to have good diction particularly in our high range I found that working with Kathryn improved my ability to be understood by an enormous percentile of the audience with much less vocal fatigue than I would have experienced if left to my own devices I have often told my colleagues enthusiastically of her interesting solutions to the frustrating problems of diction I am thrilled that her techniques are now in print for all to benefit from them In *Singing and Communicating in English* internationally renowned diction coach Kathryn LaBouff provides singers with an accessible guide to the principles of English diction they need to communicate the text successfully Her thorough and much sought after technique clarifies the physiology of speech emphasizes the studied practice of careful and articulate pronunciation and focuses on the study of English cadence Covering aspects of phonetics from vowels to diphthongs to fricatives the book includes multiple practical exercises in International Phonetic Alphabet IPA transcriptions helpful diagrams and pronunciation drills each chosen from the most essential English art song and operatic repertoire In addition to standard American and British English a variety of regional dialects and accents are covered in depth A companion website features a full range of vowel consonant drills poems read aloud by the author and by theater and voiceover actor John Keating as well as an exercise answer key and publishers lists to help the singer locate a vast array of English language works for performance This book is an invaluable resource for all vocalists both professional and aspiring diction instructors teachers and coaches and choral directors VISIT THE COMPANION SITE AT www.oup.com/us/singinginenglish

Fundamentals of Complementary and Alternative Medicine - E-Book
Marc S. Micozzi, 2014-11-20 Practitioners like you have been turning to Micozzi's comprehensive CAM text for the past 20 years. Filled with the most up-to-date information on scientific theory and research and updated contributions from world experts, *Fundamentals of Complementary and Alternative Medicine* 5th Edition gives you a solid foundation of the therapies and evidence-based clinical applications for CAM and expands your global perspective with new and updated chapters on healing systems from around the world. Dive into interesting discussions on massage, manual therapies, and bodywork; yoga; chiropractic; osteopathy; herbal medicine; aromatherapy and essential oils therapy; nature cure; naturopathy and naturopathic medicine; and nutrition and hydration. With its wide range of topics, this 20th anniversary edition is your ideal CAM reference. A broad perspective traces CAM therapies from their beginnings to present-day practices. Clinical guides for selecting therapies and new advances for matching the appropriate therapy to the individual patient enable you to offer and/or recommend individualized patient care. Expert contributors include well-known writers such as Kevin Ergil, Patch Adams, Joseph Pizzorno, and Marc Micozzi himself. A unique synthesis of information including historical usage, cultural and social analysis, current basic science theory and research, and a wide range of clinical investigations and observations makes this text a focused, authoritative resource. Suggested readings and references in each chapter list the best resources for further research and study. Coverage of CAM therapies and systems includes those most commonly encountered or growing in popularity so you can carefully evaluate each treatment. An evidence-based approach focuses on treatments best supported by clinical trials and scientific evidence. Observations from mechanisms of action to evidence of clinical efficacy answers questions of how, why, and when CAM therapies work. Global coverage includes discussions of traditional healing arts from Europe, Asia, Africa, and the Americas. NEW! Updated chapters feature new content and topics including challenges in integrative medicine, legal issues, CAM in the community, psychometric evaluation, placebo effect, stress management, and much more. NEW! Updated guides on common herbal remedies in clinical practice. East and Southeast Asia and native North and South America deliver the latest information. NEW! Revised chapters with new contributors offer fresh perspectives on these important and relevant topics. EXPANDED! Basic science content and new theory and research studies cover a wide range of sciences such as biophysics, biology, and ecology; ethnomedicine; psychometrics; neurosciences; and systems theory. NEW! New and expanded global ethnomedical systems include new content on Shamanism and Neo-Shamanism, Central and North Asia, Southeast Asia, Nepal, and Tibet, Hawaii, and South Pacific, Alaska, and Pacific Northwest, and contemporary global healthcare.
