#### The Moral Underground How Ordinary Americans Subvert An Unfair Economy:

The Moral Underground Lisa Dodson, 2010-01-12 A fascinating look at the disconnect between corporate policies and workers real lives and the everyday heroes who try to help Publishers Weekly For the poor there are challenges every day that they don't have extra money to solve a sick kid car trouble an unexpected dentist bill The obstacles can make it harder to hold on to a job but a job loss would be catastrophic However there are countless unsung heroes who bend or break the rules to help those millions of Americans with impossible schedules paychecks and lives make it from paycheck to paycheck This book tells their stories Whether it s a nurse choosing to treat an uninsured child a supervisor deciding to overlook infractions or a restaurant manager sneaking food to a worker's children middle class Americans are secretly refusing to be complicit in a fundamentally unfair system that puts a decent life beyond the reach of the working poor In this tale of a kind of economic disobedience told in whispers to Lisa Dodson over the course of eight years of research across the country hundreds of supervisors teachers and health care professionals describe intentional acts of defiance that together tell the story of a quiet revolt of a moral underground that has grown in response to an immoral economy It documents a whole new phenomenon people reaching across America's economic fault line and provides an account of the human consequences and lives behind the business page headlines If only this book had been published in 2007 Then the hundreds of people interviewed by Lisa Dodson would have been able to pass along an important piece of advice What's good for business is not necessarily good for America Time The ^AOxford Handbook of Women and the Economy Susan L. Averett, Laura M. Argys, Saul D. Hoffman, 2018-05-15 The transformation of women's lives over the past century is among the most significant and far reaching of social and economic phenomena affecting not only women but also their partners children and indeed nearly every person on the planet This Handbook provides an invaluable and wide ranging summary of the economics literature on women and the many changes that have occurred in their economic lives It focuses on women in both developed and developing economies and includes chapters on marriage and fertility the labor market and current policy issues Return of Ordinary Capitalism Sanford F. Schram, 2015-10-05 The Return of Ordinary Capitalism examines neoliberalism as the prevailing political economic logic of our time How we got to this point what are the effects on the economy politics and public policymaking and what can and should be done about it are the key questions addressed **Ethical Innovation in** Business and the Economy Georges Enderle, Patrick E. Murphy, 2015-12-18 Innovation has become a buzzword that promises dramatic changes in almost every field of business Absent from this attention is a serious discussion of the ethical sides of dramatic change To address this editors Georges Enderle and Patrick E Murphy gather a team of experts to fully examine the ethics of innovation within business and the economy in this standout addition to the Studies in TransAtlantic Business Ethics series Work and Family in the New Economy Samantha K. Ammons, Erin L. Kelly, 2015-02-25 This volume will focus on innovative research examining how the nature of paid work intersects with family and personal life

today This collection of cutting edge research will be instrumental in shaping the next wave of work family scholarship The Ethics of Justice Without Illusions Louis E. Wolcher, 2016-06-17 The founding premise of this book is that the nimbus of prestige which once surrounded the idea of justice has now been dimmed to such a degree that it is no longer sufficient to secure the possibility of a good conscience for those who undertake in good faith to make the world a better place in the spheres of politics and law The many decent human beings who have noticed and experienced this diminishment of justice s prestige find themselves in a thoroughly disenchanted existential situation For them the attempt to do justice without the illusion of being grounded in something beyond the sheer facticity of their own performances is a distinctly ethical theme which cries out to be investigated in its own right Heeding the cry this book asks and attempts to answer the following fundamental ethical question is a life in the law even one spent in the pursuit of justice worth living and if so how can a disenchanted person come to bear the living of it without constantly having to engage in self deception If Nietzsche is right that living without illusions is impossible for human beings then the most important ethical implication of this essentially anthropological fact goes far beyond the question of what illusions we ought to choose It must also include the question of whether we should succumb to that most seductive and pernicious of all illusions namely the belief that exercising great care and responsibility in choosing our illusions which we might then call our principles of justice excuses us ethically for what we do to others in their name The culmination of a 10 year legal philosophical project this book will appeal to graduate students scholars and curious non academic intellectuals interested in continental philosophy critical legal theory postmodern theology the philosophy of human rights and the study of individual ethics in the context of law American Education Lillian Dowdell Drakeford Ph.D., 2015-07-28 In this unique two volume work expert scholars and practitioners examine race and racism in public education tackling controversial educational issues such as the school to prison pipeline charter schools school funding affirmative action and racialized curricula This work is built on the premise that recent efforts to advance color blind race neutral educational policies and reforms have not only proven ineffective in achieving racial equity and equality of educational opportunities and outcomes in America's public schools but also exacerbated existing inequalities That point is made through a collection of essays that examine the consequences of racial inequality on the school experience and success of students of color and other historically marginalized populations Addressing K 12 education and higher education in historically black as well as predominantly white institutions the work probes the impact of race and racism on education policies and reforms to determine the role schools school processes and school structures play in the perpetuation of racial inequality in American education Each volume validates the impact of race on teaching and learning and exposes the ways in which racism manifests itself in U S schools In addition practical recommendations are presented that may be used to confront and eradicate racism in education By exposing what happens

when issues of race and racism are marginalized or ignored this collection will prepare readers to resist and perhaps finally

overcome the racial inequality that plagues America's schools **Liberty Means Freedom for All** Steven H. Propp, 2012-11-16 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science Its an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his sett led view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rands philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christi an Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved **Women and Poverty in** 21st Century America Paula vW. Dáil, 2011-12-22 Despite an overhaul in the 1990s the American welfare system remains with a business model focused on the bottom line Crafted by male dominated legislative bodies whose members most likely never had to choose between paying the rent or feeding their kids established policies primarily protect the popular programs that ensure politicians re election This book offers a feminist perspective on the 21st century attitude toward poverty illustrated by the words of women forced to live every day with social policies they had no voice in developing Topics include the struggles of daily life crime health care education employment and a discussion of capitalism inequality greed and moral obligation in a free society In the unrestrained pursuit of wealth this work shows that America has created a vast poverty problem making the rich richer and forcing the poor into a forgotten class **Love** Anna G. Jónasdóttir, Ann Ferguson, 2013-11-12 This unique timely book of original essays sets the stage for a new materialist feminist debate on the analysis ethics and politics of love The contributors raise questions about social power and domination situating their research in a materialist feminist perspective that investigates love historically in order to understand changing ideologies representations and practices The essays range from studies of particular representations and examples of love feminist translation mass media images and internet love blogs to feminist theories of love and marriage to ethical and political theories describing critiquing or advocating the use of love in groups as a radical force They break new ground in bringing

together questions of gendered interests in love temporal dimensions of loving practices and the politics of love in radical **Broken** Paul LeBlanc, 2022-09-27 Many of the systems built to serve people instead do more transformations of society harm than good In Broken Dr Paul LeBlanc president of Southern New Hampshire University draws on his experience working in one such system education to reconnect us to the human facets of serving people In doing so he charts a course for rebuilding and reinhabiting better systems across education healthcare criminal justice government and more The United States spends enormous sums on helping people 3 8 trillion on healthcare 182 billion on prisons and 604 billion on higher education and yet these systems routinely fail us When we seek to improve how they function our efforts focus on policy debates technical solutions funding and data But if these systems are to truly improve we have to start with the human values that fuel decision making Broken explores the deeply human dimensions we must consider aspiring discovering mattering if we want to rebuild the policies technologies processes and most importantly the heart we use to serve people Over the course of 25 years as a college and university president and higher education innovator Paul LeBlanc PhD has encountered innumerable wonderful people who want to do the right thing for students but whose efforts cannot overcome the shortcomings of the system Now he shares what he s learned and continues to learn about the opportunities and necessity to put humanity and care at the center of all our systems With Broken LeBlanc outlines the distinctly human questions that education and all systems that serve must start asking to reframe what is broken in order to make lasting repairs and to better care for those they serve Ethics in IT Outsourcing Tandy Gold, 2016-04-19 In IT divisions and organizations the need to execute in a competitive and complex technical environment while demonstrating personal integrity can be a significant personal and organizational challenge Supplying concrete guidelines for those at an ethical crossroads Ethics in IT Outsourcing explores the complex challenges of aligning IT outsour Challenging the School Readiness Agenda in **Early Childhood Education** Miriam B. Tager, 2017-03-27 Challenging the normative paradigm that school readiness is a positive and necessary objective for all young children this book asserts that the concept is a deficit based practice that fosters the continuation of discriminatory classifications Tager draws on findings of a qualitative study to reveal how the neoliberal agenda of school reform based on high stakes testing sorts and labels children as non ready affecting their overall schooling careers Tager reflects critically on the relationship between race and school readiness showing how the resulting exclusionary measures perpetuate the marginalization of low income Black children from an early age Disrupting expected notions of readiness is imperative to ending practices of structural classism and racism in early childhood education Youth Held at the Border Lisa (Leigh) Patel, 2012-12-01 Illegal Undocumented Remedial DREAMers All of these labels have been applied to immigrant youth Using a combination of engaging narrative and rigorous analysis this book explores

how immigrant youth are included in and excluded from various sectors of American society including education Instead of the land of opportunity immigrant youth often encounter myriad new borders long after their physical journey to the United

States is over With an intimate storytelling style the author invites readers to rethink assumptions about immigrant youth and what their often liminal positions reveal about the politics of inclusion in America Book Features Engaging case studies that capture the lived experiences of immigrant youth from secondary school and beyond a cohesive analysis of how immigration law education and health intertwine to shape possible life pathways descriptions of educational practices that both support and disempower newcomer immigrant students recommendations for interrupting day to day practices that privilege some and disadvantage others Making It Louis Uchitelle, 2009-06-09 A veteran New York Times economics correspondent reports from factories nationwide to illustrate the continuing importance of industry for our country. In the 1950s manufacturing generated nearly 30 percent of US income But over the decades that share has gradually declined to less than 12 percent at the same time that real estate finance and Wall Street trading have grown While manufacturing s share of the US economy shrinks it expands in countries such as China and Germany that have a strong industrial policy Meanwhile Americans are only vaguely aware of the many consequences including a decline in their self image as inventive practical and effective people of the loss of that industrial base Reporting from places where things were and sometimes still are Made in the USA New York New York Boston Detroit Fort Wayne and Indianapolis Indiana Los Angeles Midland Michigan Milwaukee Philadelphia St Louis and Washington DC Louis Uchitelle argues that the government has a crucial role to play in making domestic manufacturing possible If the Department of Defense subsidizes the manufacture of weapons and war materiel why shouldn t the government support the industrial base that powers our economy Combining brilliant reportage with an incisive economic and political argument Making It tells the overlooked story of manufacturing s still vital role in the United States and how it might expand Compelling demonstrates the intimate connection between good work and national well being economics with a heart Mike Rose author of The Mind at Work **Freedom's Right** Axel Honneth, 2014-03-11 Theories of justice often fixate on purely normative abstract principles unrelated to real world situations. The philosopher and theorist Axel Honneth addresses this disconnect and constructs a theory of justice derived from the normative claims of Western liberal democratic societies and anchored in morally legitimate laws and institutionally established practices Honneth's paradigm which he terms a democratic ethical life draws on the spirit of Hegel's Philosophy of Right and his own theory of recognition demonstrating how concrete social spheres generate the tenets of individual freedom and a standard for what is just Using social analysis to re found a more grounded theory of justice he argues that all crucial actions in Western civilization whether in personal relationships market induced economic activities or the public forum of politics share one defining characteristic they require the realization of a particular aspect of individual freedom This fundamental truth informs the guiding principles of justice enabling a wide ranging reconsideration of its nature and application

**Working-Class Comic Book Heroes** Marc DiPaolo,2018-04-19 Contributions by Phil Bevin Blair Davis Marc DiPaolo Michele Fazio James Gifford Kelly Kanayama Orion Ussner Kidder Christina M Knopf Kevin Michael Scott Andrew Alan Smith

and Terrence R Wandtke In comic books superhero stories often depict working class characters who struggle to make ends meet lead fulfilling lives and remain faithful to themselves and their own personal code of ethics Working Class Comic Book Heroes Class Conflict and Populist Politics in Comics examines working class superheroes and other protagonists who populate heroic narratives in serialized comic books Essayists analyze and deconstruct these figures viewing their roles as fictional stand ins for real world blue collar characters Informed by new working class studies the book also discusses how often working class writers and artists created these characters Notably Jack Kirby a working class Jewish artist created several of the most recognizable working class superheroes including Captain America and the Thing Contributors weigh industry histories and marketing concerns as well as the fan community s changing attitudes towards class signifiers in superhero adventures The often financially strapped Spider Man proves to be a touchstone figure in many of these essays Grant Morrison's Superman Marvel's Shamrock Alan Moore and David Lloyd's V for Vendetta and The Walking Dead receive thoughtful treatment While there have been many scholarly works concerned with issues of race and gender in comics this book stands as the first to deal explicitly with issues of class cultural capital and economics as its main themes Planet Kath Weston, 2017-01-06 In Animate Planet Kath Weston shows how new intimacies between humans animals and their surroundings are emerging as people attempt to understand how the high tech ecologically damaged world they have made is remaking them one synthetic chemical radioactive isotope and megastorm at a time Visceral sensations she finds are vital to this process which yields a new animism in which humans and the environment become thoroughly entangled In case studies on food water energy and climate from the United States India and Japan Weston approaches the new animism as both a symptom of our times and an analytic with the potential to open paths to new and forgotten ways of living

Transnational Struggles for Recognition Dieter Gosewinkel, Dieter Rucht, 2016-11-01 Now more than ever recognition represents a critical concept for social movements both as a strategic tool and an important policy aim While the subject s theoretical and empirical dimensions have usually been studied separately this interdisciplinary collection focuses on both to examine the pursuit of recognition against a transnational backdrop With a special emphasis on the efforts of women s and Jewish organizations in 20th century Europe the studies collected here show how recognition can be meaningfully understood in historical analytical terms while demonstrating the extent to which transnationalization determines a movement s reach and effectiveness Ghettos, Tramps, and Welfare Queens Stephen Pimpare, 2017-05-22 Ghettos Tramps and Welfare Queens Down Out on the Silver Screen explores how American movies have portrayed poor and homeless people from the silent era to today It provides a novel kind of guide to social policy exploring how ideas about poor and homeless people have been reflected in popular culture and evaluating those images against the historical and contemporary reality Richly illustrated and examining nearly 300 American made films released between 1902 and 2015 Ghettos Tramps and Welfare Queens finds and describes representations of poor and homeless people and the places they have inhabited

throughout the century long history of U S cinema It moves beyond the merely descriptive to deliberate whether cinematic representations of homelessness and poverty changed over time and if there are patterns to be discerned Ultimately the text offers a preliminary response to a handful of harder questions about causation and consequence Why are these portrayals as they are Where do they come from Are they a reflection of American attitudes and policies toward marginalized populations or do they help create them What does this all mean for politics and policymaking Of interest to movie buffs and film scholars cultural critics and historians policy analysts and those curious to know more about homelessness and American poverty Ghettos Tramps and Welfare Queens is a unique window into American politics history policy and culture it is an entertaining and enlightening journey
