longue dur e of the Middle Ages especially its importance within the evolution of medieval society settlement and landscape It explores the nature and presence of vaccaries a high status form of specialized cattle ranch They produced beef stock milk and cheese and the draught oxen necessary for medieval agriculture While they are most often associated with wild northern uplands they also existed in lowland landscapes and areas of Forest and Chase Nationally medieval cattle have been one of the most important and neglected aspects of the agriculture of the medieval period As part of both a mixed and specialized farming economy they have helped shape the countryside we know today **Pilipinas** ,2002 Text Editions of (Abnormal) Hieratic, Demotic, Greek, Latin and Coptic Papyri and Ostraca ,2020-12-29 This volume is a Festschrift in honour of Francisca Hoogendijk containing contributions by forty friends colleagues and former students It includes fifty six editions and re editions of Abnormal Hieratic Demotic Greek Latin and Coptic texts most of them from Ancient Egypt The texts are as diverse as the jubilee s own range of interests and her extensive papyrological network including both literary and documentary texts written on papyri and potsherds dating from the twelfth century BCE to the eighth century CE All texts are published with transcriptions translations commentary and photographs *The Pyramids (New and Revised)* Miroslav Verner,2021-01-04 An authoritative account by preeminent Egyptologist Miroslav Verner covering over 70 of Egypt s and Sudan s pyramids their historical and political significance updated in a magnificent new edition A pyramid as the posthumous residence of a king and the place of his eternal cult was just a single if dominant part of a larger complex of structures with specific religious economic and administrative functions The first royal pyramid in Egypt was built at the beginning of the Third Dynasty ca 2592 2544 BC by Horus Netjerykhet later called Djoser while the last pyramid was the work of Ahmose I the first king of the Eighteenth Dynasty ca 1539 1292 BC Nearly two decades have passed since distinguished Egyptologist Miroslav Verner s seminal *The Pyramids* was first published In that time fresh explorations and new sophisticated technologies have contributed to ever more detailed and compelling discussions around Egypt s enigmatic and most celebrated of ancient monuments In this newly revised and updated edition including color photographs for the first time Verner brings his rich erudition and long years of site experience comes to bear on all the latest discoveries and archaeological and historical aspects of over 70 of Egypt s and Sudan s pyramids in the broader context of their more than one thousand year long development Lucidly written with 300 illustrations and filled with gripping insights this comprehensive study illuminates an era that is both millennia away and vividly immediate **Birds, Beasts and Burials: A study of the human-animal relationship in Romano-British St. Albans** Brittany Elayne Hill,2017-04-30 *Birds Beasts and Burials* examines human animal relationships as found in the mortuary record within the area of Verulamium that is now situated in the modern town of St Albans **A treatise of testaments and last wills ... Agreement deserved the attention the world gave it even if it was not always accurately understood After its ratification in two referendums for the first time in history political institutions throughout the island of Ireland rested upon the freely given assent of majorities of all the peoples on the island It marked it was hoped the full political decolonization of Ireland Whether Ireland would reunify or whether Northern Ireland remain in union with Great Britain now rested on the will of the people of Ireland North and South respectively a complex mode of power sharing addressed the self determination dispute The concluding volume of Brendan O Leary s *A Treatise on Northern Ireland* explains the making of this settlement and the many failed initiatives that preceded it under British direct rule Long term structural and institutional changes and short term political maneuvers are given their due in this lively but comprehensive assessment The Anglo Irish Agreement is identified as the political tipping point itself partially the outcome of the hunger strikes of 1980 81 that had prevented the criminalization of republicanism Until 2016 the prudent judgment seemed to be that the Good Friday Agreement had broadly worked eventually enabling Sinn Féin and the DUP to share power with intermittent attention from the sovereign governments Cultural Catholics appeared content if not in love with the Union with Great Britain But the decision to hold a referendum on the UK s membership of the European Union has collaterally damaged and destabilized the Good Friday Agreement That in turn has shaped the UK s tortured exit negotiations with the European Union In appraising these recent events and assessing possible futures readers will find O Leary s distinctive angle of vision clear sharp unsentimental and unsparing of reputations in keeping with the mastery of the historical panoramas displayed throughout this treatise
