The Law of Wreck Nicholas Gaskell, Craig Forrest, 2019-11-05 This book covers wreck law as an integrated whole going beyond the question of removal to include issues such as the ownership of wreck and how the law deals with the many commercial law problems arising after ships have been wrecked during the maritime commercial adventure The book offers authoritative guidance on the genesis and meaning of the Nairobi Wreck Removal Convention 2007 and the interpretation of its often complex provisions as they apply both to States trying to use its powers and to shipowners and liability insurers faced by its obligations The authors explain the increasingly complex inter relationship between linked areas of maritime law including salvage intervention and the overlapping international regimes which deal with pollution from oil bunkers or hazardous and noxious substances The book examines how a salvage operation transitions to wreck removal and links the liability provisions with the standard form international commercial contracts actually used by the industry to remove wrecks eg BIMCO s Wreckstage 2010 Wreckhire 2010 and Wreckfixed 2010 It also covers the complex requirements concerning the disposal of wrecks including the latest recycling regulations applicable in 2019 The Law of Wreck will be of value to shipping industry professionals insurers and legal practitioners as well as academics and students of maritime law

*The Redeemed* Tim Pears, 2019-01-24  
SHORTLISTED FOR THE WALTER SCOTT PRIZE 2020 A stirring exquisitely rendered tale of homecoming the final instalment in Tim Pears s epic West Country Trilogy Selected as a book of 2019 by the Guardian Scotsman and The Times It is 1916 The world has gone to war and young Leo Sercombe hauling coal aboard the HMS Queen Mary is a long way from home The wild unchanging West Country roads of his boyhood seem very far away from life aboard a battlecruiser a universe of well oiled steel of smoke and spray and sweat where death seems never more than a heartbeat away Skimming through those West Country roads on her motorcycle Lottie Prideaux defies the expectations of her class and sex as she covertly studies to be a vet But the steady rhythms of Lottie s practice her comings and goings between her neighbours and their animals will be blown apart by a violent act of betrayal and a devastating loss In a world torn asunder by war everything dances in flux how can the old ways life survive and how can the future be imagined in the face of such unimaginable change How can Leo lost and wandering in the strange and brave new world ever hope to find his way home The final instalment in Tim Pears s exquisite West Country Trilogy *The Redeemed* is a timeless stirring and exquisitely wrought story of love loss and destiny fulfilled and a bittersweet elegy to a lost world

*Between the Devil and the Deep* Della A. Scott-Ireton, 2013-08-23 In creating interpretive strategies for maritime sites archaeologists and resource managers often are required to think creatively to overcome challenges and problems These issues include interpreting sites in inaccessible

locations and extremely deep water enabling and controlling access to fragile sites and restricted areas monitoring visitor behavior making information interesting to a wide audience and creating opportunities for public engagement among other concerns Meeting Challenges presents cutting edge interpretation and public education strategies for maritime resources both on land and underwater with emphasis on solving the unique problems often associated with presenting these fragile limited access sites as heritage attractions and on developing effective visitation and civic engagement opportunities The examples presented ideally can serve as models for resource managers archaeologists engaged in interpretation and site administrators This volume brings together a diverse group of heritage professionals to discuss issues they ve encountered and to present ideas and case studies for adapting improvising and overcoming them **The Phantom of Scapa Flow**

Alexandre Korganoff,2022-02-21 On the night of 13 14 October 1939 the German commander of U boat U 47 G nther Prien steered past the sunken block ships and chains which inadequately protected the British naval base at Scapa Flow in the Orkney Islands The U Boat sank the old British World War I battleship HMS Royal Oak and then escaped into the North Sea The loss of the Royal Oak was insignificant in naval terms though over 800 men perished with her however this was a bitter blow to British moral British Warship Losses in the Modern Era, 1920-1982 David Hepper,2023-10-05 This important new reference work details all those ships and vessels of the Royal Navy large and small which were lost by accident or enemy action during the twentieth century from the end of the First World War to the last years of the century In all the fates of over 2 000 ships and small craft are covered from aircraft carriers and battleships to motor launches harbour tenders and tugs Those vessels hired or purchased for wartime service such as trawlers paddle steamers and yachts are also listed During wartime ships are lost it is their purpose to go in harm s way Hostile gunfire torpedoes and mines were established threats throughout the period while the increasing threat of air attack and the introduction of weapons employing new technology such as influence triggered mines homing torpedoes or air launched guided weapons added to the risks of operating in a hostile environment Ships operating in extremely hazardous conditions such as at Dunkirk in 1940 or Singapore in 1942 suffered heavy losses in brief concentrated conflicts but the long continuous campaigns such as the Atlantic convoys or the constant need to sweep for mines also took their toll Peacetime losses are dominated by submarine casualties demonstrating the dangerous character of that service To this may be added the hazardous nature of the sea itself when ships are lost in heavy weather sometimes human error or plain foolishness may play a part The core of the book is taken up by those losses experienced during the Second World War but peacetime losses and more recent conflicts such as the Falklands War of 1982 are included Arranged chronologically every entry notes the outline details of the vessel identifies the Commanding Officer where known and gives a full and often harrowing account of the circumstances of the loss and the number of casualties The details come from extensive original research using primary source material wherever possible particularly the relevant War Diaries and the collected loss and damage reports casualty reports and reports of proceedings now in the National Archives

Wartime losses of the Dominions are included to ensure completeness This comprehensive record of warship losses from all causes suffered by the Royal Navy over the past one hundred years is the first single volume work on the subject and represents a major milestone in naval research and publishing     Sport Diver ,2005-05     The Maritime Archaeology of a Modern Conflict Innes McCartney,2014-10-24 Over the last 30 years hydrographical marine surveys in the English Channel helped uncover the potential wreck sites of German submarines or U boats sunk during the conflicts of World War I and World War II Through a series of systemic dives nautical archaeologist and historian Innes McCartney surveyed and recorded these wrecks discovering that the distribution and number of wrecks conflicted with the published histories of U boat losses Of all the U boat war losses in the Channel McCartney found that some 41% were heretofore unaccounted for in the historical literature of World War I and World War II This book reconciles these inaccuracies with the archaeological record by presenting case studies of a number of dives conducted in the English Channel Using empirical evidence this book investigates possible reasons historical inconsistencies persist and what Allied operational and intelligence based processes caused them to occur in the first place This book will be of interest to scholars and researchers in the fields of nautical archaeology and naval history as well as wreck explorers     **Spoils of War** Aidan Dodson,Serena Cant,2020-03-30 An extensive history of enemy fleets following both World Wars featuring never before seen archival and archaeological materials Spoils of War traces the histories of navies and ships of the defeated powers from the months leading up to the relevant armistices or surrenders to the final execution of the appropriate post war settlements In doing so it discusses the way in which the victorious powers reached their final demands how these were implemented and to what effect The later histories of ships that saw subsequent service either in their original navies or in those navies which acquired them are also described Much use is made of archival materials and in some cases archaeological sources some of which have never previously been used Ultimately a wide range of long standing myths are busted and some badly distorted modern views are set right The fascinating narrative is accompanied by lists of all major navy built and certain significant ex mercantile enemy ships in commission at the relevant date of the armistice or surrender or whose hulks were specifically listed for attention in post Second World War allied agreements These include key dates in their careers and their ultimate fates This original book featuring numerous photographs is sure to become an essential reference tool for all those interested in the naval history of the two World Wars Praise for Spoils of War Most highly recommended Firetrench For those who need to finally know the ultimate fate of the often gallant ships that strove against the Allies in both world wars this is the book Julian Stockwin author of the Thomas Kydd series     *Distant Victory* Daniel A. Butler,2006-07-30 Distant Victory is an examination of the great sea fight at Jutland that is more than a mere balance sheet of ships sunk and lives lost or an account of which fleet fled before the other Rather it is an retelling of the battle that reveals its long term consequences set in motion by the decisions both the Germans and the British made as a result of each fleet s experience at Jutland While the German High Seas Fleet

could claim a tactical victory because it sank more ships and inflicted higher casualties on the Royal Navy's Grand Fleet than the British did to the Germans the British could rightly claim that strategically they won the battle for when it was over the German warships had retreated to the safety of their harbors having failed in their objective of defeating the Grand Fleet in detail For the past nine decades the Battle of Jutland has been history's most hotly debated and least understood naval action Treated usually as a tactical German victory or else as a draw and dismissed as strategically indecisive it has been remembered by historians as for its lost opportunities mistakes and sheer scale the largest naval surface action ever fought and the greatest clash of battleships the world would ever see The Battle of Jutland has never been seen as one of the decisive battles of the First World War      **Sport Diver** ,2005-08      **Task Force** John Parker,2013-02-28 The Royal Navy at the start of the twenty first century had undergone the most remarkable transformation The Fleet is today the smallest since the start of the Napoleonic wars as surface vessels are no longer viable as a principal line of defence That preserve is now in the hands of Britain's nuclear armed submarine fleet well chronicled in THE SILENT SERVICE and the Air Force as outlined in STRIKE COMMAND This book will complete the triangle of our essential military might telling the story of today's sea going ultra mobile rapid reaction missile and aircraft carrying task force John Parker includes personal interviews from the men and women who have served in the Senior Service to bring his story vividly to life
