Forrest,2014-08-09 We are at a crucial point in time a moment of transition as important as the emergence of Homo sapiens or the beginning of civilisation after the Neolithic Revolution Paradoxically the triumph of the West also called globalisation means the death of Europe and European man Our destiny hangs between two options either to complete the triumph of the egalitarian conception of the world which will bring about the end of history or to promote a historical regeneration Nietzsche prophesied that the Earth will eventually belong to either the last man or to the superman There are no other alternatives   **Roman Conquests: North Africa** Nic Fields,2011-01-26 The third in the Roman Conquests series will briefly cover Rome s first forays into the dark continent during the First and Second Punic Wars then cover in detail her vindictive final conquest and destruction of Carthage in the Third Punic War The subsequent long wars against the slippery Numidian prince Jugurtha which tested the Roman military system to the limit also occupy a central place With a cast of characters including Hannibal the Scipios Marius Sulla and the wily Jugurtha this is sure to be a popular addition to the series Like the other volumes this book gives a clear narrative of the course of these wars explaining how the Roman war machine coped with formidable new foes and the challenges of unfamiliar terrain and climate Specially commissioned color plates by Graham Sumner bring the main troop types vividly to life in meticulously researched detail   **Boudica** Vanessa Collingridge,2007-06-26 An intelligent and infectiously enthusiastic biography of the Celtic queen and an analysis of her impact on British and feminist history The Sunday Times Boudica has been mythologized as the woman who dared to take on the Romans to avenge her daughters her tribe and her enslaved country Her immortality rests on the fact that she almost drove the Romans out of Britain and her legend has become the reference point for any British woman in power from Elizabeth I to Margaret Thatcher As Boudica has become well known as an icon of female leadership and strength the true story of her revolt against the Roman Empire has only become more distant until now Combining new research and recent archaeological discoveries Vanessa Collingridge has written a major new biography on this shadowy and often misunderstood figure of ancient history Boudica provides a detailed history of the Celtomania that has adopted Boudica as its earliest hero and the nationalist and feminist causes that have also tried to claim her as their own While tracking the origins and impact of the various versions of the Boudica legend Collingridge unearths a historical woman who is far subtler but every bit as fascinating as the myths associated with her name Deeply researched and powerfully explosive Saga Magazine A compelling tale Daily Mail   **Church History** James E.
