The Newman Guide Joseph A Esposito:

Status Envy Anne Hendershott, 2017-09-08 The debate within Catholic educational circles on whether church sponsored colleges and universities perpetuate mediocrity by giving too great a priority to the moral development of students instead of scholarship and intellectual excellence continues in this book by sociologist Anne Hendershott She asserts that part of the reason for the crisis of faith within Catholic colleges is due to status envy the desire to compete with the top colleges in the country Catholic universities are generally not rated as top notch They are viewed as having a lower status than secular institutions which of course creates resentment Catholic universities in turn become more secular as they become consumed with status concerns Detailing how this resentment manifests itself on campuses Hendershott explains faculty and administrative attempts to distance universities from Catholic ideas and curriculum Some have distanced themselves so far from their Catholic origins that the church no longer recognizes them as Catholic institutions The author questions whether even determined Catholic universities will be able to avoid the pressures to become more secular Hendershott who clearly sympathizes with the original mission of Catholic universities leads the reader through the earliest signs that Catholic colleges were beginning to lose their way in the 1960s up through the ongoing issues of feminism and homosexuality and their impact In focusing on these secular issues colleges are denying exposure to the traditional Catholic views on subjects such as homosexuality women's ordination and abortion Like all culture wars the interaction among people defines the situation The campus is a reflection of the greater culture between those who assert that there are no truths only readings and those who believe that the truths have been revealed and require constant rereading and application It is a conflict between those dedicated to the negation of the authority of Scripture and the hierarchy of the church and those proposing a renaissance of the Catholic intellect and a renewed appreciation of the church itself *Global Catholicism* Rausch, SJ, Thomas P., 2021-02-17 A critical analysis of the Catholic Churches around the world by areas North America Latin America Africa Asia the Pacific Europe with attention to their origins internal challenges and external pressures U.S. Army War College Guide to Strategy Joseph R. Cerami, James F. Holcomb, 2001 For more than 3 decades the U S Army War College USAWC Department of National Security and Strategy has faced the challenge of educating future strategic leaders on the subject of national security or grand strategy Fitting at the top of an officer's or government official's career long professional development program this challenge has been to design a course on strategy that incorporates its many facets in a short period of time all within the 1 year senior service college curriculum To do this a conceptual approach has provided the framework to think about strategy formulation The purpose of this volume is to present the USAWC strategy formulation model to students and practitioners This book serves as a guide to one method for the formulation analysis and study of strategy an approach which we have found to be useful in providing generations of strategists with the conceptual tools to think systematically strategically critically creatively and big Balancing what is described in the chapters as ends ways and

means remains at the core of the Army War College's approach to national security and military strategy and strategy formulation Movie/TV Soundtracks and Original Cast Recordings Price and Reference Guide Jerry Osborne, 2002-11
