After Globalization Eric Cazdyn, Imre Szeman, 2012-11-28 AFTER GLOBALIZATION Relentlessly remorselessly endlessly we are told there is no alternative to globalization whether our lecturers are bourgeois economists progressive journalists or imaginative litterateurs Eric Cazdyn and Imre Szeman dare to go beyond the standard thinking of the day and query the very heart of mobile capital and its impact on daily life Their alternative vision breathes new life into our sense of evolution and inevitability Toby Miller author of Globalization and Sport and Global Hollywood Cazdyn and Szeman begin with the idea that the current economic crisis has historicized globalization turning it from a process that looked as inevitable as say global warming still does into an episode in the history of capitalism hence the possibility not just of more globalization but of an after globalization And hence also they argue the renewed possibility of an after capitalism In powerful critiques of what they describe as the common sense of capital today they sketch out the terms in which changes more radical than substituting generous and honest leaders for the greedy and dishonest ones we've currently got might begin to be imagined Walter Benn Michaels University of Illinois at Chicago In lively and unflinching prose Eric Cazdyn and Imre Szeman argue that contemporary thought about the world is disabled by a fatal flaw the inability to think an after to globalization After establishing seven theses on education morality nation future history capitalism and common sense that challenge the false promises that sustain this time limit After Globalization examines four popular thinkers Richard Florida Thomas Friedman Paul Krugman and Naomi Klein and considers how their work is dulled by these promises Cazdyn and Szeman then speak to students from around the globe who are both unconvinced and uninterested in these promises and who understand the world very differently than the way it is popularly represented After Globalization argues that a true capacity to think an after to globalization is the very beginning of politics today

of Odysseus's familiar wanderings as lessons that everyone can use. We see how to resist the seduction of the Sirens song to stop sailing and give up, how to bide our time in a situation and wait for the right opportunity as Odysseus does when faced with the murderous one-eyed Cyclops and how to reassess our story and rediscover our purpose and identity if like the Lotus Eaters we have forgotten the past. With meditations that yield personal revelations, illuminating anecdotes from Fischer's and his students' lives and stories from many wisdom traditions, *Sailing Home* shows the way to greater purpose in your own life. You will learn a new way to view your path, when to wait and when to act, when to speak your mind and when to exercise discretion, how to draw on your innate strength and distinguish between truth and deception and how to deal with aging and changing relationships. *Sailing Home* provides the courage you need for your journey to renew bonds with your loved ones and to make the latter portion of life a heartfelt time of spirit and love so that just as Odysseus does, you can defeat the forces of entropy and death.
