The Next Target:

Next Target - Earth! Johnny W. Underwood, 2025-05-19 In *Next Target Earth* an alien civilization multiple thousands of years in advanced technology has interfered with life on Earth even before the demise of the dinosaurs Their meddling resulted in the creation of atomic weapons during WWII Earth is now in the middle of the twentieth century and the alien civilization has determined that humanity is advancing in technology too fast and will again eliminate all life on Earth as they did when the dinosaurs became a bore to them Fortunately for Earth the aliens are fighting a war with a sister civilization in their own galaxy so the Earth is a secondary target for now This alien civilization is a mirror image of humans Their inability to understand that peaceful cooperation is preferable to aggressively eliminating life forms that are not part of their civilization reflects the divisions found on Earth throughout the existence of humans on our planet Constant wars and lack of empathy for others has needlessly deprived humanity of hundreds of thousands of resources that could have been used for the betterment of the human race instead of the wanton destruction those wars have wrought The book ends with the burning question Is there anyone or something else out there About the Author Johnny W Underwood is a career soldier joining the US Army at age seventeen immediately after graduating from high school in Arkansas He survived basic combat training at Fort Polk Louisiana in the summer of 1968 and completed advanced individual training as an engineer heavy equipment operator at Fort Leonard Wood Missouri After AIT he was assigned to a field artillery unit in Germany and was promoted into the ranks of the cannoneers He served in Germany for a cumulative total of eleven years and at Fort Sill Oklahoma the home of the field artillery for a total of thirteen years six and a half of those years were as a drill sergeant Other assignments include a tour in Vietnam in 1969 70 two years in South Korea and three years at Fort Lewis Washington He completed the US Army Sergeants Major Course at Fort Bliss Texas in 1986 as a member of Class 27 and was the command sergeant major of three battalions two brigades and a Corps Artillery for the last twelve years of his thirty year Army career After retiring from the Army he was a Zone Manager for GEICO s local office program for five years and a manager in the GEICO Military Department for fourteen years He retired from GEICO in 2017 He lives in Northern Virginia with his wife of more than thirty six years

Bringing scientific thinking to life: An introduction to Toyota Kata for next-generation business leaders (and those who would like to be) Sylvain Landry, 2022-06-10 FACING CHALLENGING GOALS AND UNPREDICTABLE PATHS PRACTICE SCIENTIFIC THINKING Your team s ability to learn and adapt is paramount and scientific thinking is the key to unlocking this invaluable skill The bad news It s not our natural default position as adults The good news There s a simple and proven approach to developing it in any organization or team including yours called Toyota Kata Professor Sylvain Landry lays out a straightforward management practice that enables each level of your organization to apply scientific ways of thinking and working to achieve whatever goals you re pursuing This book is that good I can t wait to have leaders read it Sylvain shares his journey with Kata in a way that transported me

into it He brings a clear understanding and a powerful message on how to go about it in a short and easy to read format I consider this essential reading for anyone looking to start scientific thinking practice in their organization Tony Hren Senior Director Danaher Business System Danaher Corporation A practical and easily digestible book on Toyota Kata that s perfect for our managers and their teams Kasper B dker Mejlvang General Manager Novo Nordisk Denmark Iceland Sylvain Landry captures the essence of developing practical everyday scientific thinking that powers up your team intertwined with the fascinating psychology behind it Timothy McQueen General Manager GE Aviation If I d had this book before I got into Kata it would have increased my understanding of how to get started A great precursor to initial training and practice Andrea Simpson Senior Operations Director and Process Improvement NEA Baptist Health System As a leader of an organization the challenge of improving is hard to sustain This MUST read book highlights how top organizations fuel their journey and even enjoy the trip by managers shepherding practice of scientific thinking in their teams Dan Bergeron President CEO of SigmaPoint Technologies A compact book every manager who wants to coach high performance should read Take it along on your next flight Professor Jeffrey Liker author of the bestseller The Toyota Way We develop many thinking habits at work which makes the workplace the world s largest classroom and managers its teachers What skills and mindset are you conveying in your team Read this book and realize how important your work with your team is Mike Rother author of the bestselling Learning to See Toyota Kata and The Toyota Kata Practice Guide [Signal Processing in Radar Systems](#)

Vyacheslav Tuzlukov, 2017-12-19 An essential task in radar systems is to find an appropriate solution to the problems related to robust signal processing and the definition of signal parameters Signal Processing in Radar Systems addresses robust signal processing problems in complex radar systems and digital signal processing subsystems It also tackles the important issue of defining signal parameters The book presents problems related to traditional methods of synthesis and analysis of the main digital signal processing operations It also examines problems related to modern methods of robust signal processing in noise with a focus on the generalized approach to signal processing in noise under coherent filtering In addition the book puts forth a new problem statement and new methods to solve problems of adaptation and control by functioning processes Taking a systems approach to designing complex radar systems it offers readers guidance in solving optimization problems Organized into three parts the book first discusses the main design principles of the modern robust digital signal processing algorithms used in complex radar systems The second part covers the main principles of computer system design for these algorithms and provides real world examples of systems The third part deals with experimental measurements of the main statistical parameters of stochastic processes It also defines their estimations for robust signal processing in complex radar systems Written by an internationally recognized professor and expert in signal processing this book summarizes investigations carried out over the past 30 years It supplies practitioners researchers and students with general principles for designing the robust digital signal processing algorithms employed by complex radar systems

The Caldron of Consciousness Ralph D. Ellis, Natika Newton, 2000-01-01 These new studies by prominent neuroscientists psychologists and philosophers work toward a coherent framework for understanding emotion and its contribution to the functioning of consciousness in general as an aspect of self organizing embodied subjects Distinguishing consciousness from unconscious information processing hinges on the role of motivating emotions in all conscious modalities and how emotional brain processes interact with those traditionally associated with cognitive function Computationally registering processing sensory signals e g in the occipital lobe or area V4 by itself does not result in perceptual consciousness which requires subcortical structures such as amygdala hypothalamus and brain stem This interdisciplinary anthology attempts to understand the complexity of emotional intentionality why the role of motivation in self organizing processes is crucial in distinguishing conscious from unconscious processes how emotions account for agency and how an adequate approach to emotion motivation can address the traditional mind body problem through a holistic understanding of the conscious behaving organism Series B
