Reforming the Presidential Nominating Process Lisa K. Parshall, 2018-06-14 The 2020 presidential selection process is already underway As the political parties finalize their nominating rules and the states jostle for an advantageous contest date potential challengers are being identified and sized up by party insiders Once again media and popular attention will be disproportionately focused on the candidates performance in the first and earliest of the state nominating contests and on how quickly the sequence of primaries and caucuses winnows the field and identifies the presumptive nominees But what are the implications of a sequential and front loaded nominating calendar that gives some voters outsized influence while leaving many others with a constrained choice or no choice in the selection of their party s presidential nominee **Reforming the Presidential Nominating Process Front Loading s Consequences** and the **National Primary Solution** critiques the contemporary nominating process from the perspective of voters and their right to effectively participate in their parties selection of a presidential nominee Employing both a common sense and legal rights based framework to invite a constitutionally grounded conversation on the legitimacy of the current presidential nominating process Lisa K Parshall argues that timing of participation in the nomination goes hand in hand with the right to choose a candidate and the fairest way to restore the promise of meaningful and timely participation for all voters is by adopting a same day national primary Viewed from the party membership perspective this work illuminates the fundamental interests at stake that should be considered in any potential reform of the presidential nominating system

In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don t have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can t fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn t care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The

reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around
