The Medieval Cult of Saint Dominic of Silos Anthony Lappin, 2002

Lucas the garrulous bishop of Tuy included the thaumaturgy of Saint Dominic of Silos as one of the glories of Spain in his mid thirteenth century account of the Peninsula's history. This study examines the rise to prominence of one of the most important of saints' cults in Medieval Spain and its development throughout the Middle Ages. It interrogates neglected texts such as the late eleventh century *Vita Dominici Exiliensis* and the late thirteenth century *Miraculos romancados* as well as artistic representations and works written outside Silos and places the more widely known *Vida de Santo Domingo* by Gonzalo de Berceo c 1260 in a new light by firmly fixing its presentation of the saint within the development of the cult. Dominic's veneration became centred upon his role in freeing captives and a study of this phenomenon provides a focus on the frontier and its settlers through their devotion to the saint as well as illuminating their view of their Muslim adversaries. This is not the only centre of interest in the book and a variety of approaches are employed to draw as round a picture as possible of the functioning of this saint's cult from analysis of the manuscript traditions of the various works discussed to a consideration of the anthropology of Silos as a pilgrimage centre. All quotations are given in both Latin or Romance with an English translation.

Medieval Latin Frank Anthony Carl Mantello, A. G. Rigg, 1996

Organized with the assistance of an international advisory committee of medievalists from several disciplines, *Medieval Latin: An Introduction and Bibliographical Guide* is a new standard guide to the Latin language and literature of the period from c AD 200 to 1500. It promises to be indispensable as a handbook in university courses in Medieval Latin and as a point of departure for the study of Latin texts and documents in any of the fields of medieval studies. Comprehensive in scope, the guide provides introductions to and bibliographic orientations in all the main areas of Medieval Latin language, literature and scholarship. Part One consists of an introduction and sizable listing of general print and electronic reference and research tools. Part Two focuses on issues of language with introductions to such topics as Biblical and Christian Latin and Medieval Latin pronunciation, orthography, morphology and syntax, word formation and lexicography, metrics, prose styles and so on. There are chapters on the Latin used in administration, law, music, commerce, the liturgy, theology and philosophy, science and technology and daily life. Part Three offers a systematic overview of Medieval Latin literature with introductions to a wide range of genres and to translations from and into Latin. Each chapter concludes with a bibliography of fundamental works, texts, lexicographical studies and research aids. This guide satisfies a long standing need for a reference tool in English that focuses on medieval latinity in all its specialized aspects. It will be welcomed by students, teachers, professional latinists, medievalists, humanists and general readers interested in the role of Latin as the learned lingua franca of western Europe. It may also prove valuable to reference librarians assembling collections concerned with Latin authors and texts of the postclassical period.

ABOUT THE EDITORS F A C Mantello is professor of Medieval Latin at The Catholic University of America. A G Rigg is professor of English and medieval studies and chairman of the Medieval Latin Committee at the University of Toronto's Centre for Medieval Studies. PRASIE

fighting men which beset the Latin kingdom in the twelfth century The Order of St Lazarus which saw the idea become a reality founded establishments across Western Europe to provide essential support for its hospitaller and military vocations This book explores the important contribution of the English branch of the order which by 1300 managed a considerable estate from its chief preceptory at Burton Lazars in Leicestershire Time proved the English Lazarites to be both tough and tenacious if not always preoccupied with the care of lepers Following the fall of Acre in 1291 they endured a period of bitter internal conflict only to emerge reformed and reinvigorated in the fifteenth century Though these late medieval knights were very different from their twelfth century predecessors some ideologies lingered on though subtly readapted to the requirements of a new age until the order was finally suppressed by Henry VIII in 1544 The modern refoundation of the order a charitable institution dates from 1962 The book uses both documentary and archaeological evidence to provide the first ever account of this little understood crusading order DAVID MARCOMBE is Director of the Centre for Local History University of Nottingham
