writers Larissa Lai Chitra Divakaruni Hiromi Goto and Ruth Ozeki employ myth science fiction and magic realism to provide alternatives to global capitalism She notes that others such as filmmaker Deepa Mehta and performers dramatists Nadine Villasin and Nina Aquino play with the multiple identities afforded to them by transcultural connections Ultimately Ty sees in these diverse narratives unfastened mobile subjects heroes and travelers who use everyday tactics to challenge inequitable circumstances in their lives brought about by globalization

Relocating Consciousness Daphne Grace, 2007 This book deals directly with issues of consciousness within works of postcolonial and diasporic writers It discusses fiction autobiography and theory to re formulate a writing of consciousness addressing contemporary cultural theory related to a wide range of dynamic writers and ground breaking novels A critical analysis of literature contextualises consciousness understood here as the source of language and human creativity and explores ways in which consciousness is involved in the creative process Tackling the controversial nature of consciousness itself the book argues that consciousness must be understood in its philosophical and social contexts The idea of relocating consciousness calls for a new aesthetics and ethics of living in the diasporic world where we are all to some extent migrant The book explores notions of consciousness as alternative narrative structures to society while expanding contemporary postcolonial theory beyond the limited dimension of power based on violence to a more visionary exploration of experience based on consciousness as unity in diversity Themes explored include sacred experience as empowerment trauma terror and the impact of consciousness cosmopolitanism and globalisation and the
