The Trinity in the Stone-Campbell Movement Kelly D. Carter, 2015-05-10 An assessment of Trinitarian thought in the two hundred year old Stone Campbell Movement including suggestions for ways in which the renewal of Trinitarian doctrine can revitalize the church's life and mission Throughout its history the Stone Campbell Movement has noticeably neglected Trinitarian doctrine prohibiting a biblical understanding of God as Trinity from significantly impacting the movement's churches This book attempts to rectify this weakness in three ways First a focus on the Trinitarian positions of Thomas Campbell Alexander Campbell and Barton W Stone sheds new light on the early shapers of the movement Second the book lays out specific ways in which the movement would benefit by a biblically grounded Trinitarianism and the contributions of contemporary trinitarian theologians And third it presents a plan for the advancement of biblical Trinitarian doctrine among Stone Campbell churches Significant contributions of this study include the most thorough examination to date of Trinitarian doctrine in Stone Campbell thought an original presentation of the historical theology that stands behind the Trinitarian positions of Thomas Campbell Alexander Campbell and Barton W Stone and a fresh proposal regarding the roots of Barton Stone's quasi Arianism *THE COMPLETE AUTOBIOGRAPHICAL WORKS OF S. examines Tarski's Kripke's and Lukasiewicz's theories of truth and discusses validity and soundness and vagueness Part Two considers a wide range of attempts to resolve the paradoxes within classical logic In Part Three Field turns to non classical theories of truth that restrict excluded middle He shows that there are theories of this sort in which the conditionals obey many of the classical laws and that all the semantic paradoxes not just the simplest ones can be handled consistently with the naive theory of truth In Part Four these theories are extended to the property theoretic paradoxes and to various other paradoxes and some issues about the understanding of the notion of validity are addressed Extended paradoxes involving the notion of determinate truth are treated very thoroughly and a number of different arguments that the theories lead to revenge problems are addressed Finally Part Five deals with dialethic approaches to the paradoxes approaches which instead of restricting excluded middle accept certain contradictions but alter classical logic so as to keep them confined to a relatively remote part of the language Advocates of dialethic theories have argued them to be better than theories that restrict excluded middle for instance over issues related to the incompleteness theorems and in avoiding revenge problems Field argues that dialetheists' claims on behalf of their theories are quite unfounded and indeed that on some of these issues all current versions of dialetheism do substantially worse than the best theories that restrict excluded middle

The Patristic Understanding of Creation William A. Dembski, Wayne J. Downs, Fr. Justin B. A. Frederick, 2019-11-14

The Patristic Understanding of Creation encapsulates what the Church Fathers had to say in their own words on the topic of creation Going back to Roman and Byzantine times the writings of the Church Fathers are basic to Christian theology and provide a benchmark for how Christians have traditionally understood creation This understanding of creation however faces tremendous challenges in our day especially in discussions at the intersection of science and religion Process theology and other efforts to reconceptualize creation have explicitly opposed key elements of the Christian doctrine of creation creation ex nihilo the transcendence and immanence of God in creation the absolute creatureliness and non self sufficiency of the world to use a phrase of Fr Georges Florovsky the goodness of creation and the openness of the world to divine action All of these the Church Fathers not only held but also ably defended This anthology is therefore not merely of academic or historical interest In reasserting a theologically sound understanding of creation this anthology fills a need that is both practical and urgent

The Nature of Things Anthony M. Quinton, 2019-03-07

Originally published in 1973 In this systematic treatise Anthony Quinton examines the concept of substance a philosophical refinement of the everyday notion of a thing Four distinct but not unconnected problems about substance are identified what accounts for the individuality of a thing what confers identity on a thing what is the relation between a thing and its appearances and what kind of thing is fundamental in the sense that its existence is logically independent of that of any other kind of thing In Part 1 the first two problems are discussed while in Part 2 the third and fourth are considered Part 3

examines four kinds of thing that have been commonly held to be in some way non material abstract entities the un observable entities of scientific theory minds and their states and finally values The author argues that theoretical entities and mental states are in fact material He gives a linguistic account of universals and necessary truths and advances a naturalistic theory of value Studies in Corsica, Sylvan and Social John Warren Barry,1893 The Danish People's High-school Foreningen for højskoler og landbrugsskoler (Denmark),1918 **Newman on Vatican II** Ian Ker,2014-08-28

John Henry Newman is often described as the Father of the Second Vatican Council He anticipated most of the Council s major documents as well as being an inspiration to the theologians who were behind them His writings offer an illuminating commentary both on the teachings of the Council and the way these have been implemented and interpreted in the post conciliar period This book is the first sustained attempt to consider what Newman s reaction to Vatican II would have been As a theologian who on his own admission fought throughout his life against theological liberalism yet who pioneered many of the themes of the Council in his own day Newman is best described as a conservative radical who cannot be classed simply as either a conservative or liberal Catholic At the time of the First Vatican Council Newman adumbrated in his private letters a mini theology of Councils which casts much light on Vatican II and its aftermath The leading Newman scholar Ian Ker argues that Newman would have greatly welcomed the reforms of the Council but would have seen them in the light of his theory of doctrinal development insisting that they must certainly be understood as changes but changes in continuity rather than discontinuity with the Church s tradition and past teachings He would therefore have endorsed the so called hermeneutic of reform in continuity in regard to Vatican II a hermeneutic first formulated by Pope Benedict XVI and subsequently confirmed by his successor Pope Francis and rejected both progressive and ultra conservative interpretations of the Council as a revolutionary event Newman believed that what Councils fail to speak of is of great importance and so a final chapter considers the kind of evangelization a topic notably absent from the documents of Vatican II Newman thought appropriate in the face of secularization **Psalm CXXV to CL** Charles Haddon Spurgeon,1886 The Benedict Proposal Joshua Brumfield,2020-05-06

How ought the church respond to the rise of a post Christian secular age Should it retreat What is the mission of the church in this context Joseph Ratzinger s eucharistic ecclesiology provides a model for living the relation between communion and mission a model that provides a sound image for conceiving of and imagining the church s engagement with modernity and the embodiment of missionary communion Ratzinger s vision deeply influenced by St Benedict s and St Augustine s responses to the problems of their day offers a theologically and liturgically grounded vision of missionary communion that transcends politics In light of our creation by from and for the triune God authentic responses to the present dis integration of reason and community require the witness and invitation of the church as a community for the world Ratzinger argues that right worship can and does habituate Christians and equip churches to respond to the existential questions confronting modern persons many of whom seem partially paralyzed by the anxieties of life without truth and
