*Coaching Soccer Like Guardiola and Mourinho* Timo Jankowski, 2016-08-29 A soccer player is more than the sum of his parts endurance speed shooting technique passing technique and many more All of these factors need to be turned into one system to create good players Traditional training theory doesn't achieve that because each skill is trained individually This is why the concept of Tactical Periodization has become the preferred training theory for many of the current most successful soccer coaches Pep Guardiola Jos Mourinho Diego Simeone Andr Villas Boas and many others train according to these principles By creating match like situations in practice players learn to link their technical tactical and athletic abilities to match intelligence They will learn to transfer their skills to soccer matches and they can improve endurance technique and tactics all at the same time while enjoying the practice sessions more For this book the author has evaluated and analyzed hundreds of training sessions and has tailored exercises to specific demands All exercises are performed with a ball so that players learn to apply each skill to the game Every coach will find numerous exercises in this book to help them create better and more efficient practice sessions so they can improve their players and the team's performance With Tactical Periodization your team will become better and be successful on the next match day **Football Coaching** Carl
