Mentzel,2021-03-11 Religion and nationalism are both powerful and important markers of individual identity but the relationship between the two has been a source of considerable debate Much if not most of the early work done in Nationalism Studies has been based at least implicitly on the idea that religion as a genealogical carrier of identity was displaced with the advent of secular modernity which was caused by nationalism Or to put it another way national identity and its ideological manifestation nationalism filled the void left in people s self identification as religion retreated in the face of modernity Since at least the late 1990s this view has been increasingly challenged by scholars trying to account for the apparent persistence of religious identities Perhaps even more interestingly scholars of both religion and nationalism have noted that these two kinds of self identification while sometimes being tense as the earlier models explained are also frequently coexistent or even mutually supportive This collection of essays explores the current thinking about the relationship between religion and nationalism from a variety of perspectives using a number of different case studies What all these approaches have in common is their interest in complicating our understandings of nationalism as a primarily secular phenomenon by bringing religion back into the discussion Christ and Other Masters Charles Hardwick,2025-07-23 Reprint of the original first published in 1874 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Summary of the Yugoslav Press* ,1968-07-02 **Life Entrepreneurs** Christopher Gergen,Gregg Vanourek,2011-01-04 An inspirational and practical guide for anyone who wants to incorporate the dynamic skills of entrepreneurs into their own lives and work A new generation of life entrepreneurs is emerging people who apply their vision talents creativity and energy not only to their work but to their entire lives changing the world for themselves and those around them In this book successful entrepreneurs Christopher Gergen and Gregg Vanourek draw on
