Zimsec Geography Paper 2 And Marking Sheme:

Climate Change and Agriculture in Zimbabwe Mark Matsa, 2020-09-03 This book proves through empirical research that indigenous and traditional agricultural communities have experienced severe climate change impacts and have developed corresponding livelihood strategies to strengthen their resilience in a variable climate. With a focus on indigenous minority farming communities in the developing region of South Western Zimbabwe, the study presents both qualitative and quantitative approaches of data analysis to assess sustainability problems amid climate change and climate variability challenges and proposes potential solutions. In eight chapters, the book expands on the scarce availability of community-based research on climate change and variability in Zimbabwe. The book is meant for college and university students and stakeholders involved in development work in rural minority farmer communities, especially in climate change-prone regions of Africa and other developing countries who have very few options of adaptation and mitigation. *World Geography Today* Holt Rinehart & Winston, 2000 Catalogue of Periodicals and Newspapers in the Library of the Basler Afrika Bibliographien Basler Afrika Bibliographien, 1999 **The Geography of Border Landscapes** Dennis Rumley, Julian V. Minghi, 2014-10-03 This volume is about border landscapes with emphasis on the varying impact that political decision making and ideological differences can have on the environment at border locations. For example, this volume by political geography experts from across the globe provides important insights specifically into border landscapes and so serves to further our understanding of aspects of cultural landscapes. *Resources in Education*, 1994 *African Refugees* Toyin Falola, Olajumoke Jacob-Haliso, 2023-01-03 *African Refugees* is a comprehensive overview of the context, causes, and consequences of refugee lives, discussing issues, policies, and solutions for African refugees around the world. It covers overarching topics such as human rights, policy frameworks, refugee protection, and durable solutions, as well as less studied topics such as refugee youths, refugee camps, LGBTQ refugees, urban refugees, and refugee women. It also takes on rare but emergent topics such as citizenship and the creativity of African refugees. Toyin Falola and Olajumoke Jacob Haliso showcase the voices and experiences of individual refugees through the sweep of history to tell the African refugee story from the historical past through current developments, covering the full range of experience from the causes of flight to living in exile, all while maintaining a persistent focus on the complicated search for solutions. *African Refugees* recognizes African agency and contributions in pursuit of solutions for African refugees over time but avoids the pitfalls of the colonial gaze where refugees are perpetually pathologized and Africa is always the sole cause of its own problems, seeking to complicate these narratives by recognizing African refugee issues within exploitative global colonial and neo-colonial systems of power. Keeping the Republic Christine Barbour, Gerald C. Wright, 2016-11-19 This refreshed and dynamic Eighth Edition of *Keeping the Republic* revitalizes the twin themes of power and citizenship by adding to the imperative for students to navigate competing political narratives about who should get what and how they should get it. The exploding possibilities of

the digital age make this task all the more urgent and complex Christine Barbour and Gerald Wright the authors of this bestseller continue to meet students where they are in order to give them a sophisticated understanding of American politics and teach them the skills to think critically about it The entire book has been refocused to look not just at power and citizenship but at the role that control of information and its savvy consumption play in keeping the republic

Transforming South Africa Armin Osmanovic,2002 *From Enslavement to Environmentalism* David McDermott Hughes,2011-10-01 *From Enslavement to Environmentalism* takes a challenging ethnographic and historical look at the politics of eco development in the Zimbabwe Mozambique border zone David Hughes argues that European colonization in southern Africa essentially an unsuccessful effort to turn the region into another North America or Australia has profoundly reshaped rural politics and culture and continues to do so as neoliberal developers commoditize the lands of African peasants in the name of conservation and economic progress Hughes builds his engaging analysis around a sort of natural experiment in the past whites colonized British Zimbabwe but avoided Portuguese Mozambique almost entirely In Zimbabwe chiefdoms that had historically focused on controlling people began to follow the English example of consolidating political power by dividing and controlling land Meanwhile in Mozambique Portugal perpetuated traditional practices of recruiting and distributing forced labor as the primary means of securing power The territory remained unmapped For almost the entire twentieth century a sharp disjuncture in the politics of land leadership labor and resource use marked the border zone In the late 1990s as white South Africans began to establish timber plantations in Mozambique that difference began to be effaced Under the banner of environmentalism and economic progress tourism firms were allowed to claim peasant farmland The objectives of liberal conservationists and developers though high minded led them to commoditize ancestral lands Southern African policymakers supported this new form of colonization as a form of racial integration between white investors and black peasants paving the way for an ironic and contentious situation in which ethnic tolerance gentrification and land grabbing have gone hand in hand *From Enslavement to Environmentalism* engages topics central to current debates in anthropology resource politics and development policy and will be of interest to both regional specialists and generalists

Danish journal of geography ,1999 **The Palgrave Handbook of African Colonial and Postcolonial History** Martin S. comprehensive vital picture of where the field of modern African history stands today **South African Journal of Geology**, 2006 **Mountains: Physical, Human-Environmental, and Sociocultural Dynamics** Mark A. Fonstad, 2018-12-07 Mountains have captured the interests and passions of people for thousands of years Today millions of people live within mountain regions and mountain regions are often areas of accelerated environmental change This edited volume highlights new understanding of mountain environments and mountain peoples around the world The understanding of mountain environments and peoples has been a focus of individual researchers for centuries more recently the interest in mountain regions among researchers has been growing rapidly The articles contained within are from a wide spectrum of researchers from different parts of the world who address physical political theoretical social empirical environmental methodological and economic issues focused on the geography of mountains and their inhabitants The articles in this special issue are organized into three themed sections with very loose boundaries between themes 1 physical dynamics of mountain environments 2 coupled human physical dynamics and 3 sociocultural dynamics in mountain regions This book was first published as a special issue of the Annals of the American Association of Geographers *India Today* Stuart Corbridge, John Harriss, Craig Jeffrey, 2013-04-03 Twenty years ago India was still generally thought of as an archetypal developing country home to the largest number of poor people of any country in the world and beset by problems of low economic growth casteism and violent religious conflict Now India is being feted as an economic power house which might well become the second largest economy in the world before the middle of this century Its democratic traditions moreover remain broadly intact How and why has this historic transformation come about And what are its implications for the people of India for Indian society and politics These are the big questions addressed in this book by three scholars who have lived and researched in different parts of India during the period of this great transformation Each of the 13 chapters seeks to answer a particular question When and why did India take off How did a weak state promote audacious reform Is government in India becoming more responsive and to whom Does India have a civil society Does caste still matter Why is India threatened by a Maoist insurgency In addressing these and other pressing questions the authors take full account of vibrant new scholarship that has emerged over the past decade or so both from Indian writers and India specialists and from social scientists who have studied India in a comparative context *India Today* is a comprehensive and compelling text for students of South Asia political economy development and comparative politics as well as anyone interested in the future of the world's largest democracy **Centralised and Decentralised Models of Education** William M.
