carried out in order to quantify and evaluate the significance of workplace hazards so that appropriate control measures can be put in place. Usually a written record of the assessment is required detailing the following information: The hazards and how much risk is associated; The risk with appropriate control measures; Deadlines to follow up the risk assessment to ensure the risk is managed; Failure to carry out risk assessments punishable by law is often due to lack of a suitable risk assessment system. Tolley's Risk Assessment Workbook Utilities provides that system both in the form of key background information on how to carry out a risk assessment understanding relevant legislation and regulations but most importantly by providing Checklists highlighting key industry specific hazards and control measures; Questionnaires highlighting key questions the risk assessor should ask when analysing the risk posed by the hazard; Action Plans to ensure the risk assessment is followed up and completed. The Workbook offers a practical risk assessment system it shows you how to comply with the law and gives you the foundations of a logical procedure that can be understood easily put into place quickly where necessary and adapted to your organisation's needs. Tolley's Risk Assessment Workbooks is a series of practical Workbooks providing you with all the information you need to conduct risk assessments in industry specific areas including Manufacturing Retail Leisure Education Offices and Construction. A special Risk Assessment Workbook on Stress has also been developed in order to facilitate management of this issue which is of key concern to all organisations.
