Selected Writings from the Journal of the Saskatchewan Mathematics Teachers' Society Egan J. Chernoff, Bharath Sriraman, Gale L. Russell, 2019-07-01. The teaching and learning of mathematics in Saskatchewan, one of three Canadian provinces sharing a border with Montana, has a long and storied history. An integral part of the past 50 years (1961-2011) of history has been *vinculum*, the Journal of the Saskatchewan Mathematics Teachers Society in its many different renditions. This monograph, which presents ten memorable articles from each of the past five decades (i.e., 50 articles from the past 50 years of the journal), provides an opportunity to share this rich history with a wide range of individuals interested in the teaching and learning of mathematics and mathematics education. Each decade begins with an introduction providing a historical context and concludes with a decade-specific commentary by a prominent member of the Saskatchewan mathematics education community. As a result, this monograph provides a historical account as well as a contemporary view of many of the trends and issues, e.g., curriculum, technology in the teaching and learning of mathematics. This book is meant to serve as a resource for a variety of individuals, including teachers of mathematics, mathematics teacher educators, mathematics education researchers, historians, and undergraduate and graduate students, and further as a celebratory retrospective on the work of the Saskatchewan Mathematics Teachers Society.

Teaching STEM and Common Core with Mentor Texts Anastasia Suen, Shirley L. Duke, 2013-12-02. Librarians can use this book to become leaders in their schools, collaborating with teachers to keep them abreast of resources that will facilitate the inclusion of STEM in the curriculum. *Teaching STEM and Common Core with Mentor Text* explains the basics of STEM (Science, Technology, Engineering, and Mathematics) and shows how librarians can become a key component in STEM education, guiding teachers and sparking interest through the books and technology inherent in their curriculum. The volume offers 20 mentor texts, plus in-depth collaborative lesson plans linked to the Common Core Standards for K-5 librarians. There are additional lessons for classroom teachers as well as activities that can easily be done in the library or classroom. Each lesson includes mentor text information, an overview of the lesson, step-by-step lesson plans, assessment options, and extension activities. By implementing these lessons in the library, librarians will be able to cover multiple Common Core State Standards and science standards and at the same time establish the library as a
