E l'azienda è sempre lì, pronta a
accogliere i clienti. E a
servirli con la massima
efficienza.

Abstract

Abstract. The authors present a new method for the analysis of the stability of the equilibrium of a system of particles. The method is based on the use of the concept of the "effective potential" and the "effective mass" of the system. The method is applied to the analysis of the stability of the equilibrium of a system of particles in a magnetic field. The results of the analysis are compared with the results of the analysis of the stability of the equilibrium of a system of particles in a magnetic field by the method of the "effective potential" and the "effective mass" of the system.
