The Armed Forces: Instrument of Peace, Strength, Development and Prosperity Joseph Babatunde Fagoyinbo, 2013-05-28

Across the ages technological developments have been accelerated by the military This results from the fact that able bodied vibrant youths are generally involved and are also exposed to high tech training prevailing at their times for assignments defence and security that are essential but not desired They form the Armed Forces for the nations Such brilliant military officers like Caesar and Napoleon made their marks and in contemporary times the Armed Forces of United States France Britain Australia etc are making remarkable contributions to technological developments Such infrastructure as the Internet the GPS and the cell phones are products that have significant military contributions This book scans across the major regions of the world highlights the efforts of representative countries in the regions and observes that nations that have harnessed the efforts of their Armed Forces have progressively developed It is also observed that developments in America and Europe though not entirely dependent on their Armed Forces have been greatly affected by their efforts In Asia such countries as the People s Republic of China Brazil India Pakistan and Singapore utilise the human and material resources within the Armed Forces for national growth and cohesion Development effort is least in the African Region except South Africa and Egypt notwithstanding the high potentials as exhibited by Nigeria s Armed Forces Although attempts to industrialise through the Armed Forces may be able to create economic development for developing nations such factors as historical background economic resources political climate government policies and infrastructure are equally important Economic development programme of an aspiring country should i promote education and access to knowledge ii aspire to economic self sufficiency in economic power iii allow and promote private sector and foreign participation in defence production research and development iv commit itself to the establishment and support of defence industries v indigenise defence programmes establish a balance between military and economic development and vi mobilise the nation s economy through technology partnership with the private sector and foreign investors

The Armed Forces: Instrument of Peace, Strength, Development and Prosperity Joseph Babatunde Fagoyinbo, 2013 Across the ages technological developments have been accelerated by the military This results from the fact that able bodied vibrant youths are generally involved and are also exposed to high tech training prevailing at their times for assignments defence and security that are essential but not desired They form the Armed Forces for the nations Such brilliant military officers like Caesar and Napoleon made their marks and in contemporary times the Armed Forces of United States France Britain Australia etc are making remarkable contributions to technological developments Such infrastructure as the Internet the GPS and the cell phones are products that have significant military contributions This book scans across the major regions of the world highlights the efforts of representative countries in the regions and observes that nations that have harnessed the efforts of their Armed Forces have progressively developed It is also observed that developments in America and Europe though not entirely dependent on their

Armed Forces have been greatly affected by their efforts In Asia such countries as the People s Republic of China Brazil India Pakistan and Singapore utilise the human and material resources within the Armed Forces for national growth and cohesion Development effort is least in the African Region except South Africa and Egypt notwithstanding the high potentials as exhibited by Nigeria s Armed Forces Although attempts to industrialise through the Armed Forces may be able to create economic development for developing nations such factors as historical background economic resources political climate government policies and infrastructure are equally important Economic development programme of an aspiring country should i promote education and access to knowledge ii aspire to economic self sufficiency in economic power iii allow and promote private sector and foreign participation in defence production research and development iv commit itself to the establishment and support of defence industries v indigenise defence programmes establish a balance between military and economic development and vi mobilise the nation s economy through technology partnership with the private sector and foreign investors

The ESL Writer's Handbook, 2nd Ed. Janine Carlock,Maeve Eberhardt,Jaime Horst,Lionel Menasche,2017-12-20 The ESL Writer s Handbook is a reference work for ESL students who are taking college level courses Because its purpose is to provide help with the broad variety of writing questions students may have when working on school assignments the text focuses on English for Academic Purposes Unlike other handbooks on the market this book s sole purpose is to address the issues of second language learners The spiral bound Handbook complements a student writer s dictionary thesaurus and grammar reference book It would be suitable as a text for an advanced ESL writing course when used together with the companion Workbook 978 0 472 03726 1 The new edition features significant revisions to Sections 3 and 4 in particular both APA and MLA style guides have been updated and new sample papers for each are included The new edition includes new and revised exercises and many new samples of student writing Like its predecessor the 2nd Edition has these special features The topic selection is based on ESL writers needs as observed by the authors over many years The coverage of topics is more complete than the limited amount usually provided for ESL writers in first language or L1 handbooks The explanatory language is appropriate for ESL students in contrast to the more complex and idiomatic language of other English handbooks Many of the examples of paragraphs essays research papers and exercise sentences were written by ESL students to help users realize that they too can become effective writers

The ESL Writer's Handbook, 3rd Edition Janine Carlock,Maeve Eberhardt,Jaime Horst,2025-01-06 Continuing fifteen years as the handbook for international students to build confidence in English for academic purposes

Globalization of the Free Economy Nawar Al-Saadi,2020-10-17 There are deep flaws in this view of globalization The chief one is that established fact and known economic patterns don t support skepticism about the benefits of trade and cross border investment While open economies always are subject to new competition and structural changes that affect firms and jobs the flip side of the coin is that the same economic processes create a lot of new jobs and business opportunities and ultimately improve the living standards

Moreover the new jobs that are created tend to be better rewarded and come with better working conditions New output is often greener and thrives on new technology leading to positive change also outside the economy This book will take a thorough view about the impact of globalization on the economy of Brazil and how it began and where it arrived Economy of Brazil is the world's sixth largest economy by nominal GDP and eighth largest by purchasing power parity The Brazilian economy is characterized by a mixed economy that relies on import substitution to achieve economic growth Brazil has an estimated US 21.8 trillion worth of natural resources which includes vast amounts of gold uranium iron and timber

The New Era Of Exponential Encryption Mele Gasakis, Max Schmidt, 2019-01-08 In their book Era of Exponential Encryption Beyond Cryptographic Routing the authors provide a vision that can demonstrate an increasing multiplication of options for encryption and decryption processes Similar to a grain of rice that doubles exponentially in every field of a chessboard more and more newer concepts and programming in the area of cryptography increase these manifolds both encryption and decryption require more session related and multiple keys so that numerous options even exist for configuring hybrid encryption with different keys and algorithms symmetric and asymmetrical methods or even modern multiple encryption with that ciphertext is converted again and again to ciphertext It will be analyzed how a handful of newer applications like e.g. Spot On and GoldBug E Mail Client Crypto Chat Messenger and other open source software programming implement these encryption mechanisms Renewing a key several times within the dedicated session with cryptographic calling has forwarded the term of perfect forward secrecy to instant perfect forward secrecy IPFS But even more if in advance a bunch of keys is sent a decoding of a message has to consider not only one present session key but over dozens of keys are sent prior before the message arrives The new paradigm of IPFS has already turned into the newer concept of these Fiasco Keys Fiasco Keys are keys which provide over a dozen possible ephemeral keys within one session and define Fiasco Forwarding the approach which complements and follows IPFS And further by adding routing and graph theory to the encryption process which is a constant part of the so called Echo Protocol an encrypted packet might take different graphs and routes within the network This shifts the current status to a new age The Era of Exponential Encryption so the vision and description of the authors If routing does not require destination information but is replaced by cryptographic insights then it is beyond cryptographic routing Cryptographic Discovery means If the cryptographic token is matching the message belongs to me The Echo Protocol is in this regard an initial welcome within the Era of Exponential Encryption The authors identify also four arms within the Era of Exponential Encryption and derive from these developments social legal political and economic recommendations

Human Rights in Nigeria's External Relations Philip Aka, 2016-12-20 This book is a broad ranging argument for thorough reforms at home and abroad in Nigeria as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Because of its enormous material and human endowments Nigeria is dubbed the Giant of Africa It is a moniker many of its leaders take seriously Yet Nigeria is a state rife with instability some of it

periodically erupting into violence Given still ongoing national security challenges in the land that notoriously includes a bloody religion oriented terrorism the Fourth Republic since 1999 the longest period of continuous democratic rule since independence key to the timeline of this book has not been insulated from the spell of instability The main argument of this work is that internationally agreed upon ethical standards embedded in human rights can save Nigeria This book is a methodologically and theoretically grounded seminal discourse on Nigerian foreign relations that spells out the human rights or lack thereof in those relations including underlying and impinging domestic forces This work is set around six issues of application embedded in a temple of Nigeria s human rights foreign policy comprising two steps and four pillars reconstructed national interest increased human rights at home redesigned peacekeeping reshaped foreign policy machinery increased bilateralism in foreign relations and the use of ECOWAS as human rights tool Although focused on the period since independence for proper understanding of events from the past that shape the current patterns of politics in the land this book also embodies a historical background chapter that overviews the pre colonial and colonial eras

Security Solutions for Hyperconnectivity and the Internet of Things Dawson, Maurice, Eltayeb, Mohamed, Omar, Marwan, 2016-08-30 The Internet of Things describes a world in which smart technologies enable objects with a network to communicate with each other and interface with humans effortlessly This connected world of convenience and technology does not come without its drawbacks as interconnectivity implies hackability Security Solutions for Hyperconnectivity and the Internet of Things offers insights from cutting edge research about the strategies and techniques that can be implemented to protect against cyber attacks Calling for revolutionary protection strategies to reassess security this book is an essential resource for programmers engineers business professionals researchers and advanced students in relevant fields

Combating the Exploitation of Children in Cyberspace: Emerging Research and Opportunities Elshenraki, Hossam Nabil, 2020-12-11 The internet has greatly enhanced access to dissemination and sale of child pornography which is a profitable industry estimated to generate billions of dollars worldwide While efforts to address the issue of sexual exploitation of children may be slow the capabilities of offenders to organize communicate over the internet and harness technology are unequivocally fast Protection of children against cyber exploitation has become imperative and measures should be taken that are specific and targeted to provide specialized victim identification capabilities adequate protection for children using the internet genuine participation of children a full and responsible private sector and finally coordinated effective and structured international cooperation to protect all children Combating the Exploitation of Children in Cyberspace Emerging Research and Opportunities provides innovative research for understanding all elements of combating cyber exploitation of children including the roles of law enforcement international organizations and the judicial system and educating children and their families to the dangers of the independent internet usage through cyberspace awareness programs The content within this publication examines child grooming cyberbullying and cybercrime It is designed for law enforcement lawmakers teachers government officials

policymakers IT specialists cybercriminal researchers psychologists victim advocates professionals academicians researchers and students

Human Rights in Nigeria's External Relations in the Age of General Muhammadu Buhari and His Successors Philip C. Aka, 2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right policy referred to alternately in the work as principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by General Muhammadu Buhari's departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Buhari's departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark of remote control dating back to the first military intervention in the country in January 1966 These momentous events within Nigeria coincide with equally epoch making developments in the UK Nigeria's former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria's external relations with ramifications for the application of human rights in those relations Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country's resources more wisely

African Development Dilemma Samuel M. Muriithi, 1997 This book explores development issues in Africa from the human social economic geographical and political perspectives It presents arguments as to why Africa remains less developed compared to other continents and provides recommendations to achieve effective development The author discusses such specific questions as Are Africans capable of developing Africa How has nature contributed to problems in Africa and Did slavery contribute to underdevelopment

Innovative Technologies and Renewed Policies for Achieving a Greener Defence Gabriele Iacovino, Mikael Wigell, 2022-08-25 This book presents a fresh and original contribution to the debate on the policies and technologies needed to achieve a Greener Defence It will provide an overall and comprehensive analysis of the current state and future prospects of the public and private discourse on the matter by leveraging on four different and complementary perspectives the national experiences of relevant NATO Member States and Partner Countries the institutional framework of International Organizations the role of industry and private companies and the intellectual contribution of research centers and academia It will provide new policy recommendations and advanced and innovative technological solutions to be implemented in order to reduce the environmental footprint of Armed Forces while improving at the same time the energy efficiency and strengthening the operational capabilities of

Militaries The book is addressed to all those interested in studying the connections between climate change environmental issues energy security and the role of Armed Forces the latter seen as an important actor for reducing the environmental impact of human activities and as a forum where to discuss and implement new green technological solutions and applications

Defence Policy of Nigeria: Capability and Context Charles Quarker Dokubo, Celestine Oyom Bassey, 2011-01-20 This Reader provides a structurally coherent explanation and review of the magnified role conception and organizational task expansion for the Nigerian military establishment in foreign policy It argues essentially that one of the most problematic and intractable areas of public policy in Nigeria since the Civil War concerns the development of a professional defence establishment adequate to meet the challenges arising from the altered parameters of our security environment The correction of this condition is the primary motivation of the Armed Forces modernization and augmentation program that touches upon all elements of Nigeria's military power This Reader is at once a review and a critique of the major facets of this modernization and augmentation process of the Nigerian armed forces within the operative context of the changing dimension of threat perception and the strategic parameters that have guided Nigerian military planning since the Civil War in 1970

The Encyclopædia Britannica Hugh Chisholm, James Louis Garvin, 1926 *Building China into a Cyber Superpower* Munish Sharma, 2024-04-26 This book provides a comprehensive look into China's emerging cyberspace strategy It highlights the prime drivers of China's desire to be a cyber superpower and discusses the ways in which China is turning resources into cyber power The book analyses China's domestic cyber policy initiatives strategy documents censorship measures and the rationale behind its strong advocacy for sovereignty in cyberspace It examines China's position on the prominent issues of cyberspace governance norms and security in cyberspace and key diplomatic initiatives The book also discusses next generation networks artificial intelligence quantum information sciences and cyber warfare An important contribution to the study of China's cyber policy the book will be of interest to students and researchers of international relations Chinese digitalisation security studies Chinese politics international security Chinese foreign policy and Chinese economy It will also be useful to the policymakers and corporate professionals engaged with China's digital sphere
